SPECIFICATIONS AND OPTIONS 51

The future starts here.

The Continental GT represents the future of grand touring.

With sleek lines carving a sharp path through the air, this astonishing car marks the beginning of a new era: one of unrivaled power, exquisite craftsmanship and cutting-edge automotive technology.

Whether you choose the groundbreaking coupé or the most finely crafted convertible of our time, whether you opt for the refined exhilaration of the W12 engine or the confident dynamism of the V8 engine, the Continental GT makes every journey extraordinary.

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

A journey that never ends.

When it first emerged, the Continental GT was revolutionary. Building on the glorious reputation established by the classic R-Type Continental, it became a symbol of everything a grand tourer should be, embodying Bentley's unique blend of exquisite style, unrivaled craftsmanship and thrilling power.

But the journey didn't end there. Bentley is always looking to the future, seeking new innovations that push the boundaries of what is achievable, in order to make tomorrow's experience even more exciting than today's. And so the Continental GT was born.

State-of-the-art technologies have been integrated throughout, to enhance the driving experience, without ever overpowering it. Inside the cabin exceptional attention to detail ensures unmatched comfort.

The open road beckons – and wherever you choose to travel, the Continental GT will take you there in unprecedented style.

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

The Continental GT.

Specially created for the Continental GT, the 6.0 liter W12 engine delivers seemingly endless reserves of power for a sophisticated yet energetic experience. Acceleration is effortless, while cruising at speed evokes a sense of grace and strength.

The engine switches between port injection and high-pressure direct injection, or combines them when required, to ensure seamless performance at all engine speeds. Bentley Dynamic Ride, an innovative electronic Active Roll Control system, senses the road conditions and adjusts the roll bars accordingly, for smooth and assured handling.

The styling is as refined as the drive. Large, oval tailpipes reflect the elliptical tail lamps above them, while elegant 21" 5 tri-spoke wheels complement the car's sleek lines. A wide choice of handcrafted hides, colorways and veneers allows you to create an interior that reflects your unique taste.

This is grand touring, elevated to remarkable new heights.

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

The new Continental GT V8.

With a lively and responsive V8 engine, the new Continental GT V8 provides breathtaking acceleration whenever you need it, for an irresistibly engaging driving experience.

Accompanying this animated drive is the distinctive Bentley V8 sound. The rewarding burble becomes gratifyingly intense as you accelerate, and is particularly potent in Sport mode.

Bold, contemporary details reflect the car's dynamic performance. Elliptical quad tailpipes add a dramatic touch at the rear, while striking 20" 10-spoke wheels, with the spokes arranged in symmetrical pairs, enhance the already stunning profile.

Inside the car, a single hide color is used throughout to create a simple yet elegant look, while the optional Color Specification opens up a wealth of additional possibilities that allow you to make your car truly your own.

Wherever your destination lies, you can be sure of a captivating journey in the new Continental GT V8.

Continental GT V8 WLTP drive cycle: fuel consumption, mpg (l/100 km) – Combined 23.9 (11.8). Combined CO_2 – 268 g/km.

A choice of convertible or coupé.

Both the Continental GT and the Continental GT V8 are available in two equally exquisite body styles.

The coupé could be considered the quintessential British grand tourer: sleek, exquisitely crafted, with unrivaled presence on the road. The convertible model is built on everything that makes the coupé great – with the option to drop the roof at the touch of a button and experience the exhilaration of an open-top Bentley.

Whether you prefer to cut through the air or embrace it, you will enjoy breathtaking performance and generous space for your passengers and luggage, whichever body style you choose.

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

DESIGN

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

A grand design.

The Continental GT range represents a dramatic new interpretation of Bentley's design language.

In developing these stunning new cars, the vision was to completely reassess the grand tourer, in both its coupé and convertible forms. What has emerged is powerful, luxurious and entirely new – a stunning example of automotive beauty.

A short front overhang and long bonnet complement classic grand tourer proportions, while the sweeping 'power line' – a feature of every Bentley – emerges confidently from between the headlamps, before tracing its path along the side of the car to the muscular rear haunch. The convertible accommodates its fabric roof in streamlined style, looking sleeker than ever, whether the top is up or down.

Even when stationary, the Continental GT looks dynamic. This is a car that, regardless of your chosen body style, evokes a sense of both elegance and speed.

Unprecedented strength and unrivaled style.

The body of the Continental GT is crafted from aluminum, steel and advanced composite materials, for remarkable strength and stunning visual impact.

Its sculptural and sharply defined form is made possible by superforming technology, a precision technique that involves heating aluminum panels to 500°C. This is the first time it has ever been used for whole side panels on a car of this size. It has also enabled the design team to eliminate the B-pillar between the front and rear side windows, for an even sleeker appearance.

A beautifully integrated fixed glass roof is also available for the Continental GT W12. Featuring an electrically-operated Alcantara blind matched to your chosen headliner color, it allows outside light to cascade in when open, giving occupants an even greater connection with the car's environment. If the Mulliner Driving Specification and the Fixed Glass Roof option is selected, a smooth leather headliner is as standard.

Unlike the rest of the car, the boot lid is crafted from composite materials, which means the aerial can be positioned beneath the surface, without being insulated. This allows you to stay connected to radio, TV and phone signals through My Bentley services, with no need for an unsightly external antenna. The Continental GT is a true leap forward in contemporary grand tourer design.

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

The finest details.

Every exterior detail has been carefully crafted to enhance the overall esthetics of the new Continental GT range.

LED matrix beam headlamps are set into polished chrome bezels. Designed to resemble illuminated gemstones when lit, their intricate interior patterns were inspired by cut-crystal glassware. The result is even more striking when they fade up to welcome you on your approach to the car.

The door mirrors, front grilles and badges are all finished in chrome to match, as are the 'Bentley' wording on the boot and the winged 'B' badges on the boot, the bonnet and the wheels. The backs of the chrome door handles, meanwhile, feature knurled surfaces – a thoughtful touch that aids grip.

At the rear, pairs of elliptical tail lamps glow red with the same cut-crystal effect, emphasizing their three-dimensional depth. Their shape is reflected in the elegant oval tailpipes beneath – two large elegant tailpipes on cars with a W12 engine, and four smaller ones on those with a V8 engine.

The two engine types are further differentiated by the positioning of the badges, with the V8 badge appearing on the fender, while the W12 badge is found on the fender vent. Consider it one more example of Bentley's unmatched attention to detail.

All images: Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

Elegant in every landscape.

The exquisite interior features in the convertible are amplified when the roof descends.

Particular attention has been paid to the fusion of interior and exterior design on display when the roof is open.

The sleek veneers that encircle the cabin sweep into the doors, emphasizing both the interior space and exterior curves such as the haunch line. The redesigned roof closure mechanism and low tonneau cover allow for a stylish, streamlined appearance with the roof down.

The roof itself can now be commissioned in a striking new tweed fabric finish – one that works especially well with the new Cricket Ball exterior paint.

With a wide range of interior and exterior colors to choose from, this is a remarkable opportunity to create your perfect Bentley – one guaranteed to stand out.

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

PERFORMANCE

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

Effortless power.

Built exclusively at Bentley Motors in Crewe, England, the 6.0 liter W12 engine in the Continental GT embodies the next generation of Bentley drivetrain innovation.

With a maximum power output of 626 bhp (635 PS / 467 kW) and torque of 664 lb ft (900 Nm), it can propel the car from 0 to 60 mph in a phenomenal 3.6 seconds (0 to 100 km/h in 3.7 seconds) – and on to an astonishing top speed of 207 mph (333 km/h).

The Continental GT Convertible, powered by the same W12 engine, will reach 60 mph in 3.7 seconds (0 to 100 km/h in 3.8 seconds), with the same top speed as the coupé.

Effortless, seemingly limitless acceleration like this has long been a Bentley hallmark. With the Continental GT, it is pushed to new heights, for performance unmatched in the world of the grand tourer.

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

Breathtaking acceleration.

The new Continental GT V8 offers irresistibly dynamic performance.

The responsive 4.0 liter V8 engine lets you accelerate from 0 to 60 mph in 3.9 seconds (0 to 100 km/h in 4.0 seconds) and on to an exhilarating top speed of 198 mph (318 km/h)*.

The Continental GT V8 Convertible, meanwhile, can take you from 0 to 60 in 4.0 seconds (0 to 100 km/h in 4.1 seconds), and achieves the same top speed as the coupé*.

This is the lightest Continental GT to date, with twin-scroll turbochargers located in the 'V' of the engine helping to increase responsiveness still further. The characteristic burble of a Bentley V8 engine is unmistakable, and is especially satisfying in Sport mode.

An involving, agile drive is at the heart of the Bentley V8 experience, and the new Continental GT V8 takes it to a thrilling new level.

Continental GT V8 Convertible WLTP drive cycle: fuel consumption, mpg (l/100 km) – Combined 23.3 (12.1). Combined CO_2 – 275 g/km.

*Subject to USA Certification.

Advanced powertrain technology.

Whichever powertrain you select, you'll benefit from a dual-clutch, eight-speed transmission.

Delivering much faster, smoother gear shifts than a traditional automatic gearbox, it makes the most of the engine's phenomenal capabilities, maximizing fuel economy while propelling the car forward with a smooth, seamless surge of acceleration.

In Sport mode, gear changes are fastest, delivering an uninterrupted flow of torque and truly thrilling acceleration. In Comfort mode, the changes are slowed slightly, to allow for an incredibly smooth ride.

The Active All-Wheel Drive system delivers rear-wheel drive under regular conditions, but when required, it also feeds instantaneous power to the front axle for complete driving confidence. Featuring a map-controlled, electronic multi-plate clutch, its sensors constantly monitor the rotation of each wheel. By combining this data with the overall velocity and lateral movement of the chassis, the car can respond to changes in road conditions instantaneously.

Designed to be driven.

The Continental GT has been designed from the ground up to deliver truly impressive handling, without compromise to the refined ride for which Bentley is famous.

The engine sits low over the front axle for optimum weight distribution, resulting in exceptional handling.

On the new Continental GT V8, a passive chassis with fixed anti-roll bars provides an ideal balance between comfort and handling. Its W12 counterpart enjoys Bentley Dynamic Ride*, an innovative 48 V Electronic Active Roll Control system that continuously adjusts the anti-roll bars, for reduced body movement and a supremely smooth ride.

Large, wide wheels ensure a greater contact area with the road surface at all times – critical when accelerating or braking. They are also wider at the back, for improved traction and cornering balance.

The electromechanical power steering feels agile and effortless, with the entire car tuned to deliver stability through corners, ensuring unmatched comfort for all occupants.

To optimize aerodynamic performance on the coupé, an integrated rear spoiler emerges automatically at a pre-determined speed to aid high-speed performance, or earlier if you wish to maximize efficiency. It can also be operated manually.

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

*Also available on the new Continental GT V8 as a cost option.

Drive it your way.

The driving characteristics of the Continental GT can be customized to suit your personal style and mood.

As the first car in the Bentley range to incorporate a three-chamber, air-spring suspension, it combines extraordinary handling with a remarkably refined, luxurious ride.

The Bentley Driving Mode system offers four driving modes. Comfort optimizes the chassis and drivetrain for luxurious cruising and the feeling that you're driving on air. Sport, on the other hand, retunes the engine instantly for a sharper, more dynamic response. The active suspension and chassis settings are also altered, delivering harder damping and more direct steering turn-in, for more agility and a truly thrilling drive.

The Bentley mode, meanwhile, provides the optimum combination of both. And there is also the Custom mode, which allows the driver to specify their own setting for powertrain response, handling and steering.

All four Bentley Driving Modes are easily accessible via a knurled control dial in the center console. It's just one more example of Bentley's unrivaled attention to detail.

TECHNOLOGY

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

An intuitive in-car experience.

The Continental GT is equipped with state-of-the-art technology, inside and out.

A 12.3" high resolution touchscreen sits in the center of the fascia, providing both driver and passenger with access to a cutting-edge infotainment system. The wide screen can be split into two independent windows – the largest one providing key interface and navigation for the driver, the other allowing the front seat passenger to use other functions such as selecting music tracks or controlling the heating and ventilation system. And thanks to a built-in proximity sensor, relevant on-screen icons are highlighted whenever a hand nears the screen, making the system even easier to use on the move.

Information at your fingertips.

For the first time in a Bentley, a high-resolution digital display behind the steering wheel shows an easy-to-read speedometer and rev counter, with digital chrome bezels and super-fine pointers.

In Expanded mode, one gauge can be minimized to show trip computer data, the map or details of any media currently playing, while an optional Head-up Display can display important driver information on the windscreen itself, including your speed, the speed limit and directions from the navigation system.

Intuitively connected.

A suite of connected services in the Continental GT use real-time information to make your journey safer, smarter and more convenient.

With a built-in Wi-Fi hotspot, you and your passengers can stay connected via your personal devices and the Apple CarPlay®*-enabled infotainment system.

Real-time traffic information incorporates up-to-the-minute traffic data into the navigation system, enabling you to plan your journeys more effectively. Google's Point of Interest search also gives you easy, voice-controlled access to information about notable locations you may encounter on the way.

In the event of an accident, Private eCall* will connect you to an emergency call centre. If you ever break down, Roadside Assistance Call provides direct contact with the Bentley Roadside Assistance team.

You can even check on your car when you're elsewhere. My Car Status, a feature accessed via the My Bentley smartphone app, provides useful information about your vehicle's status, wherever you are.

*Availability dependent on market.

The Bentley Rotating Display.

A world first, the optional Bentley Rotating Display* is a unique demonstration of Bentley's remarkable approach to technology and craft – one that allows you to personalize the car's instrumentation according to your preferences.

When the engine roars into life, a veneered section of the fascia physically rotates to reveal the 12.3" high-resolution touchscreen. Designed for unrivaled ease of use, the touchscreen features a proximity sensor that highlights the on-screen controls as you reach towards it.

The screen can be configured to display the information of your choice, while a home screen display mode allows you to see up to three screens at once. For example, you may view the navigation map, music controls and your cell phone call list.

For a more classic instrumentation style, a further rotation reveals another veneered fascia panel, this one including three analog dials with polished chrome bezels. At the end of your journey, a final, reverse rotation brings back the initial, veneer-only surface, for a clean, sleek look.

*Cost option.

All the assistance you expect.

A comprehensive suite of assistance systems allows the driver to enjoy the very latest automotive technology.

Adaptive Cruise Control* regulates the speed of the car, relative to the vehicle in front. Radar sensors scan the road ahead, enabling you to maintain your chosen speed. If the car in front slows, so does yours – right down to a stop, if required. When the traffic begins to move again, your car will accelerate to your selected cruising speed – and all without your feet ever touching the pedals.

Blind Spot Assist monitors the area immediately to the sides and the rear of the car. If you attempt to move into a lane in which another vehicle is approaching, a visual warning is displayed on the exterior mirror. Lane Assist* uses a video camera to detect any drifting across lane boundaries, making small corrections as necessary.

Integrated Traffic Sign Recognition* detects speed limits and zones in which overtaking is prohibited. The information is displayed in the digital instrument cluster and the Head-Up Display*, if fitted. Even temporary speed restrictions can be detected.

With the Park Distance function, the car sounds a warning whenever it gets too close to a parked vehicle at the front or the rear. An accompanying visual warning appears on the touchscreen, alongside the view from the rear-facing camera. Park Assist searches for a suitable car parking space and then will operate the steering wheel with the driver controlling the brake and accelerator to park the car in that space.

Three more cameras fitted around the car enable it to display a 360-degree view*. You can even opt to see the view from each one, when negotiating tight parking spaces.

With Rear Crossing Traffic Warning and Exit Warning among an extensive suite of driver assistance features, this is a car you can drive with complete confidence at all times.

*Cost option.

A car that sees in the dark.

Intelligent LED matrix* beam headlamps – featured in a Bentley for the first time – allow the main beam to be used continuously, with no intervention.

The matrix itself comprises 55 individually controlled LEDs, each one capable of switching on, switching off, or dimming, as required. Central sections of the main beam will deactivate when oncoming traffic is detected, while the rest of the LEDs illuminate the road ahead.

The system will automatically optimize the beam for different conditions – on the highway, in the city or in the country – and the LEDs will even dim to stop the light reflected from road signs dazzling the driver.

An optional Night Vision camera can aid driving in poorly lit environments, by alerting the driver to obstacles beyond the range of the headlights. An infrared camera detects the presence of obstacles that emit heat, highlighting them on the instrument digital display.

*Market specific.

Make the most of every season.

Come rain or shine, there is no better car than the Continental GT Convertible.

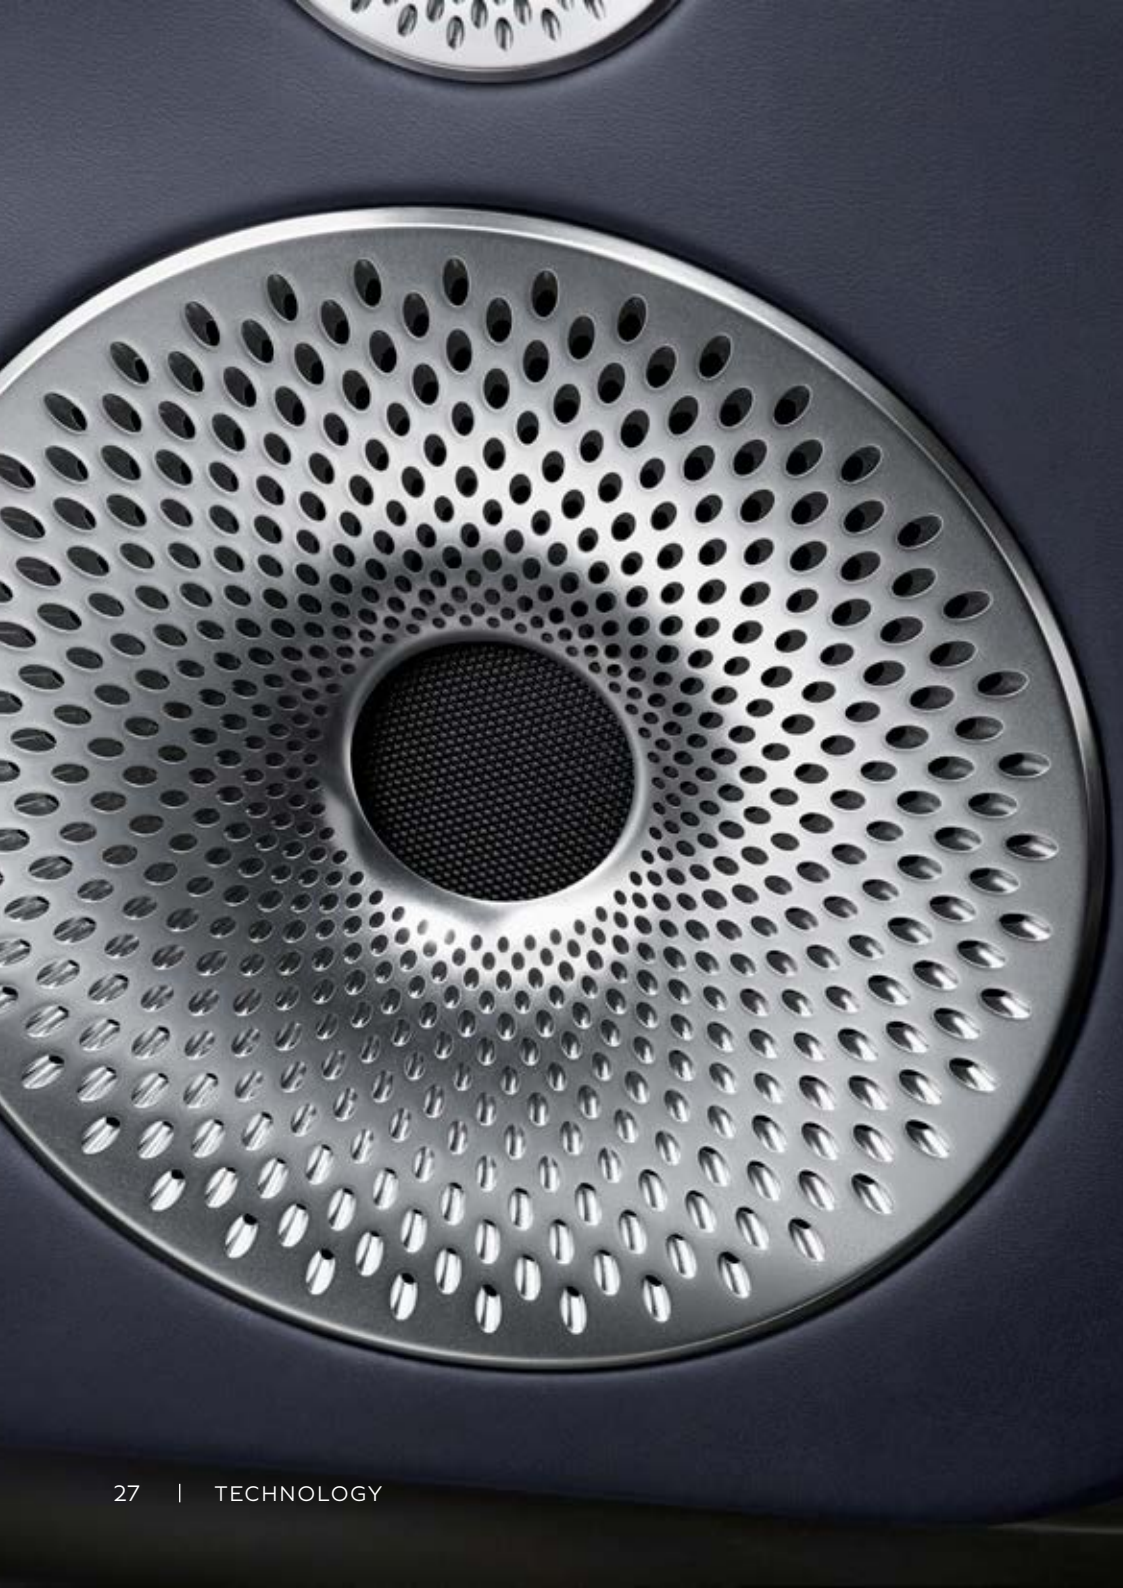

Available in a choice of stunning colors and fabrics, the four-layer roof is so secure and well-insulated when closed that it's easy to forget you're in a convertible.

It can be lowered quickly at the touch of a button, even when driving at speeds of up to 30 mph (50 km/h) – so you'll never need to stop when the sun comes out.

To complement the blissful sensation of wind in your hair, both the driver's seat and front passenger seat can include cooling functions, to keep backs and legs comfortable, even on the hottest afternoons. The coldest days can also be enjoyed with the top down, thanks to the option of a heated front armrest and a neck warmer in each front seat. Elegantly integrated into the optional Comfort Seats, the neck warmer gently circulates warm air around your neck and shoulders.

Whatever the conditions, there's no better way to experience the open road.

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

Audio and in-car ambience.

The Continental GT can be commissioned with a choice of three audio systems. The standard system with 650 Watts is tuned by Bentley, or you can choose from either the 1,500 Watt Bang & Olufsen for Bentley audio system with BeoSonic sound control or the 2,200 Watt Naim for Bentley system with active bass for the ultimate audio experience.

An active carbon filter traps dust, pollen and other particles, ensuring the atmosphere inside remains fresh at all times. An optional ioniser can be chosen for even cleaner air.

Sustainability by design.

For all its thrilling performance, the Continental GT has been engineered for a sustainable future.

Auto start/stop, advances in thermal management, electrical system recuperation and the dual-clutch transmission all play their part in reducing emissions, as does active cylinder deactivation, otherwise known as Variable Displacement. When the engine's control processor detects a light throttle opening, it closes the valves on half of its cylinders. The remaining cylinders then operate more efficiently, with less frictional and gas transfer loss. The moment the car accelerates again, the throttle opening widens and the engine switches back to full capacity, with no effect on performance.

A raft of innovations ensure that the Continental GT's emission levels are among the best in its class. It can even run on fuels with an ethanol content of up to 10%.

Bentley was founded on the principle of innovative engineering – and the invention of its founder, W.O. Bentley, drove its early success. The Continental GT continues that pioneering tradition, with a suite of technological advances that push the grand tourer beyond established limits.

INTERIOR

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

Inspired interior design.

The cosseting interior of the Continental GT embraces new technology like no other Bentley before it, while accentuating the unrivaled comfort and ambience for which Bentley interiors are renowned.

As with all models, the interior design began with a fascia built around the Bentley symmetrical 'wings' emblem. This time, the design team took the metaphor further.

A powerful center console runs between four incredibly comfortable, newly designed Continental GT seats. It rises smoothly into the fascia, with an uninterrupted flow of wood sweeping around the driver and passengers.

The fascia panels themselves can be specified with a choice of exquisite single veneers or an extraordinary feature unique to the Continental GT: distinct dual veneers.

To showcase Bentley's unmatched attention to detail, the designers have selected a striking range of hides and interior colorways – which doesn't stop at the seats. The handcrafted leather extends to a unique 'floating' leather dashboard, which flows seamlessly into the door casings.

A new diamond knurling design reflects the light beautifully, allowing for a soft, refined feel to the controls, while subtle bronze-colored inserts provide the perfect finishing touch. In the rear, the interior design reflects that of the car's powerful haunches, evoking a unique connection between the interior and the exterior.

Throughout the car, there is emphasis on authentic and unique materials, such as an optional center console inspired by the 'Côtes de Genève' finish found inside the finest watches.

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

A place for everything.

Every control in the Continental GT has been positioned with great thought, so everything from the seats to the air conditioning can be operated intuitively, even while driving.

Storage has been cleverly integrated into the interior design, with space for a smartphone or wallet located in either side of the center console. A covered cup holder sits behind the gear lever and the door storage has the capacity to hold a one-liter bottle. Twin USB ports can be found in the discreet space beneath the front armrest – perfect for storing and charging your digital devices – with inductive charging available as an option.

Seat of power.

Every seat in the Continental GT has been designed to provide the ultimate in support and comfort – as you would expect from a car with grand touring in its blood.

Hand-stitched in grade-A leather hides, they have been designed to resemble sleek sports seats, without compromising on comfort. The standard, heated 12-way adjustable front seats feature two memory settings each, while for the ultimate in driving luxury, the optional Front Seat Comfort Specification offers a 20-way seat with electrically adjustable headrests and bolsters, alongside ventilation and multiple massage modes.

The new 'diamond-in-diamond' quilting pattern, part of the Mulliner Driving Specification, lends a truly soft, cushioned feel to the bolsters and upper areas, while the perforated center panels are exceptionally smooth, for optimal performance of all heating, ventilation and massage functions. And just like every other switch in the car, the seat controls have been thoughtfully placed: the memory selectors are located in the door pads, so you can choose your preferred seating position before you even sit down

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km..

PERSONALIZING YOUR CAR

A true collaboration.

Since 1919, Bentley cars have been a collaboration between the exceptional people who make the cars and the remarkable people who commission them. That tradition continues with the Continental GT.

With every car built by hand at the Bentley factory in Crewe, the opportunities to make your car your own are practically limitless. An extensive range of options sees the best of traditional and contemporary materials combined with the latest production techniques and time-honored Bentley craftsmanship.

One such option is the Mulliner Driving Specification, which introduces a carefully curated collection of handcrafted features, including Bentley's unique 'diamond-in-diamond' leather quilting, indented leather headliner and sports pedals, as well as the 22" wheel in a choice of finishes.

*Cost option.

Exterior finish.

Color can be a powerful expression of who you are. That's why we offer a wide range of exterior colors that have been carefully curated by the Bentley design team, each one chosen specifically to emphasize the sleek lines of the Continental GT and give it a unique presence on the road.

There are 7 standard exterior colors for the Continental GT V8, and 17 for the Continental GT, with a further 46 colors in the extended range. In addition, a new palette of Mulliner paints adds a vast range of solid, metallic, satin and pearlescent options, while Personal Commission Paint by Mulliner allows you to match a color that is as unique as you are. The only limit is your imagination.

††Only available if the Blackline Specification and Mulliner Driving Specification are selected.

Veneers.

Bentley is unique in its enthusiasm for natural materials and exquisite, handcrafted finishes.

From the subtle blondes of Tamo Ash* to the smoke-like grain of Dark Fiddleback Eucalyptus*, Bentley works with a wide variety of tree species, with all wood sourced ethically from forests around the world. Every piece of wood is painstakingly sanded and lacquered in a process that takes up to ten days to reach the Bentley standard of finish.

In a world first, the Continental GT can be commissioned with one of seven stunning dual veneers. The chosen veneer is applied to the upper fascia, contrasting with a stunning Grand Black veneer on the lower fascia and center console.

The two veneers are separated by an elegant 3 mm polished chrome pinstripe running the length of the fascia and out onto the doors, in an uninterrupted line. The pinstripe can also be selected as an option with a single veneer.

Hides.

Every inch of the interior of the Continental GT is upholstered by hand. Crafting the hides is a time-honored process that involves skills that take years to learn.

From the seats to the fascia and the steering wheel, every part of this extraordinary car requires a different approach. Which is why sections of the hide with high natural elasticity are used for curved surfaces like the seats, rather than for piping or flatter areas such as door inserts. The steering wheel, meanwhile, is covered in a different type of leather, more resistant to the natural chemicals it absorbs from the driver's skin.

A wide range of leathers are available for the Continental GT – every color chosen by the Bentley design team to complement the interior perfectly. For the ultimate in luxurious comfort, semi-aniline hides* can be chosen, giving an even softer feel than that of standard leather.

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

Interior options.

The following interior options are available:

- Contrast stitching
- Contrast stitching with seat piping
- Hand Cross Stitching
- Front Seat Comfort Specification with 20-way adjustable seats featuring heating, ventilation, massage and memory functions
- Additional diamond knurling on bulls-eye air vents, organ stops and clock bezels
- Embroidered Bentley emblems
- Unique 'Côtes de Genève' center console finish
- 15 hide colors
- Five colorways
- A choice of eight single veneers and seven dual veneers
- Seven roof fabrics (convertible only)
- Eight roof lining options (convertible only)
- Sports pedals
- Inductive phone charger
- Mood lighting
- Illuminated treadplates
- Bang & Olufsen for Bentley audio system
- Naim for Bentley audio system
- Mulliner Driving Specification with 'diamond-in-diamond' quilting

Optional packages.

To make it even easier to specify your perfect Continental GT, Bentley's engineers and designers have created groups of optional features, from technology packages that make driving easier to collections of exquisitely crafted styling enhancements.

Mulliner Driving Specification

Luxurious interior and exterior details with a more sporting style.

- 22" 5 open-spoke alloy wheels (available painted, polished, full black with hand-polished edges)
- 'Diamond-in-diamond' quilting on the seats, door casings and rear quarter panels
- Indented leather headliner
- Sports pedals
- Jewel fuel filler and oil cap
- Embroidered Bentley emblems
- Piano Black or Dark Stained Burr Walnut (no cost option)

Color Specification

Opens up a range of additional interior options for the Continental GT V8 and V8 Convertible.

- 10 additional hide choices
- Four additional colorways
- Three additional interior roof colors for the V8 Convertible

City Specification

Digital assistance features for easier urban driving.

- Top View Camera
- Traffic Sign Recognition*
- City Assist
- Pedestrian Warning
- Reversing Traffic Warning
- Automatic dimming door mirrors
- Hands-free boot opening

Touring Specification

Digital assistance features for effortless cruising.

- Active Lane Assist
- Automatic Cruise Control with Traffic Jam Assist*
- Bentley Safeguard Plus
- Night Vision
- Head-Up Display*

Blackline Specification

Replaces the exterior brightware with a gloss black trim.

- Black door handles
- Black gloss radiator matrix grille with black surround
- Black wing vents and lower side strike
- Black rear bumper strike and number plate embellisher
- Black headlamp and tail lamp embellisher
- Black side window surrounds
- Black tailpipes
- Opens up additional wheel choices unique to Blackline Specification

Front Seat Comfort Specification

The ultimate in Bentley comfort for the driver and front seat passenger.

- Ventilated seats
- Multi-mode massage seats
- Adjustable cushion length
- Adjustable side bolsters
- Electric headrests
- Hide-trimmed seat belt buckles
- Heated armrests
- Neck warmer (Continental GT Convertible)

Diamond Knurling Specification

An intricate metal treatment applied to additional elements of the fascia and console.

- Knurled bulls-eye air vents
- Knurled dashboard clock bezel
- Knurled organ stops

Bentley Rotating Display

A stunning optional feature that combines classic craftsmanship with the latest digital technology.

- Diamond knurling to all three gages:
- Compass
- Chronograph
- Outside air temperature

For more information about the Bentley Rotating Display, please see page 23.

Your choice.

Commissioning a Continental GT involves an exciting journey through the options available. Bentley retailers can offer advice and guidance across a wide range of choices including your exterior paint, veneer, hides and stitching.

If you already know what you're looking for, or you simply want to experiment in your own time, the Bentley Configurator enables you to experiment with the different options. Once you've created your car, your configuration can be saved and emailed to your retailer.

www.BentleyConfigurator.com

Continental GT WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 20.8 (13.6). Combined CO_2 – 308 g/km.

Accessories.

Our designers and engineers are involved in setting the specifications for each of the accessories for the new Continental GT range.

The Styling Specification, specifically designed for the Continental GT and GT Convertible, includes a front splitter, side sills, rear diffuser and lip spoiler. The perfect way to personalize your car's exterior, it adds to the dynamic appearance of the Continental GT.

Other accessories include protective, personalized car covers for both indoor and outdoor use, protective floor covers, and winter rims and tires. A child seat trimmed with Bentley upholstery can even be embroidered with your child's name.

For details of our full accessories range, please contact your local Bentley retailer.

Continental GT Convertible WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.1 (14.8). Combined CO_2 – 336 g/km.

Acquiring your car on finance.

Bentley finance agreements are tailored to ensure you make the most of your investment.

While other financiers look only at the circumstances of the customer, Bentley Financial Services creates bespoke packages, based not just on your needs and income, but also on the car you have in mind.

To discover more, please visit your local Bentley retailer or visit BentleyMotors.com

Something to appreciate.

As is the case with every Bentley, there is only one way to truly appreciate this car – to sit in the driving seat, to take the wheel in your hands and feel the breathtaking surge of acceleration as you put your foot down.

To take the next step on the journey of acquiring a Continental GT, we recommend a conversation with a Bentley retailer. You can find your nearest showroom at BentleyMotors.com

WORLD OF BENTLEY

The Bentley Collection.

The Bentley Collection comprises a selection of lifestyle products inspired by the design, craftsmanship and performance of Bentley's cars. With many items lovingly crafted by highly skilled artisans, the Bentley Collection takes our exciting heritage and vision for the future, and seamlessly weaves it into extraordinary statement pieces.

From stylish accessories to exquisite finishing touches for the office or home, every item captures Bentley's inherent qualities of craftsmanship, tradition, exclusivity and style.

To view the complete Bentley Collection range, please contact your local Bentley retailer or visit the online store at BentleyCollection.com

The Bentley Experience.

With the opportunity to visit Bentley's factory, the Bentley Experience offers a unique insight into the design and engineering required to create a Bentley.

See the full model range and explore a dedicated personalization area, bespoke Mulliner room and Bentley boutique, for a window into the world of the Bentley brand.

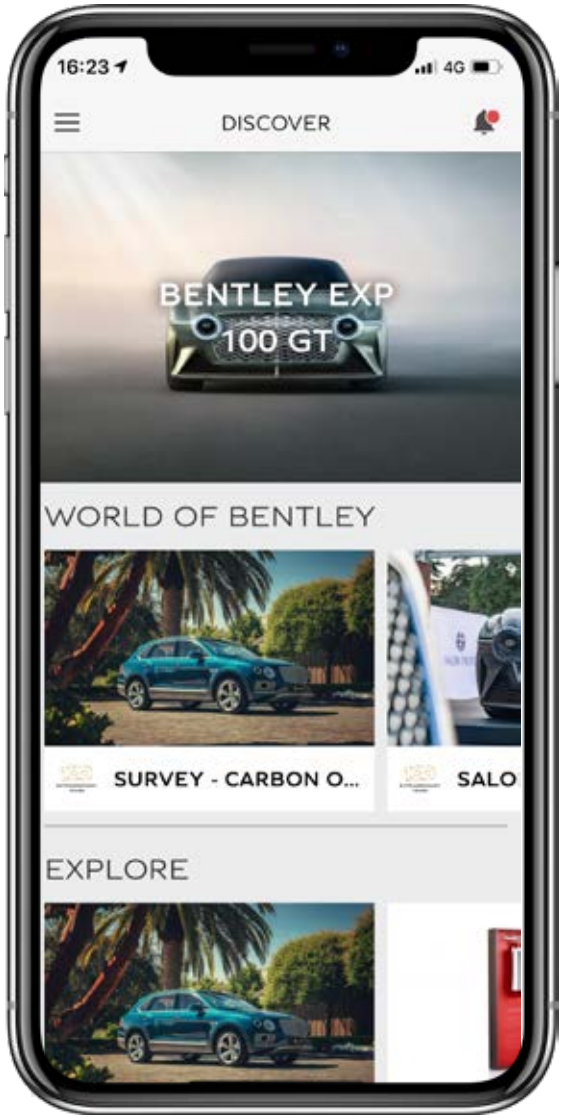

To register your interest and find out more, please contact your local Bentley retailer.

Bentley events.

Bentley runs a number of events each year for Bentley drivers and enthusiasts.

From the Extraordinary World program, which offers the opportunity to explore some of the most remote and beautiful landscapes in the world from the luxury of a Bentayga, to exclusive drives through Europe experiencing the finest cuisine, luxury and culture on offer, there is a Bentley event to satisfy everyone from the most ardent thrill seeker to the cultured adventurer.

To discover more, please visit your local Bentley retailer or visit BentleyMotors.com

The Bentley Network.

Imagine an app that puts the world of Bentley in your hands.

The Bentley Network app provides access to essential owner services, an exclusive line of communication with Bentley and membership of a global community of like-minded owners – and it puts the future of Bentley, quite literally, at your fingertips.

Available exclusively to Bentley owners, the app is a fast track to Bentley's world of unique events – with priority invitations to everything from thrilling driving experiences to intimate dinners, to some of the most exhilarating races in the global motorsport calendar.

The wealth of extraordinary owner services includes initiatives such as 'Bentley on Demand', which allows you to use a Bentley on loan.

Through the Bentley Network app, you will be the first to hear about the latest Bentley news, product announcements and exclusive content. Plus you can share your ideas, inspiration and experiences with an exclusive online community of Bentley owners just like yourself.

Search for 'Bentley Network' on either the App Store or Google Play Store.
