## A magical fusion.

The Flying Spur has many contrasting sides to its character. Each one is engaging in its own right. Together, they create a truly captivating experience.

This is a car where extreme power meets remarkable agility. Where a grand design meets intricate details. Where innovative technology meets timeless style. And where a century of Bentley craftsmanship meets cutting-edge techniques.

It is a car built for those who love to drive, while also made for those who delight in being driven. It is an inspiring luxury four-door car, and yet it delivers all the exhilarating performance of a grand tourer.

The Flying Spur range includes three models, each providing their own distinctive qualities.

The new Flying Spur Hybrid is the latest addition, representing an exciting step on Bentley's journey towards sustainable luxury, combining intelligent technology with rewarding performance. Then there's the Flying Spur V8, a car that offers a truly immersive driving experience accompanied by an emotive exhaust note and responsive V8 engine that delivers effortless performance and refinement. The Flying Spur W12 is the pinnacle of the range, providing an exhilarating and inspiring drive, combining breathtaking agility with a seemingly endless surge of power.

So, wherever you travel in the Flying Spur, you will enjoy a journey of constant discovery. Explore the range in detail [here](#).

## The new Flying Spur Hybrid.

The new Flying Spur Hybrid is the perfect balance of luxury, performance and advanced hybrid technology. This innovative vehicle is a true Bentley in every sense.

With hybrid credentials that truly revolutionise the driving dynamic, you can enjoy remarkable power, agility and dynamism paired with the serenity of near-silent motoring. Combining a responsive V6 engine with an intelligent E-Motor, the Flying Spur Hybrid takes you

from 0 to 60 mph in 4.1 seconds (0 to 100 km/h in 4.3 seconds) and on to a top speed of 177 mph (285 km/h), reaching new heights of exhilaration yet remarkably low CO<sub>2</sub> emissions.

You'll also enjoy the astounding attention to detail that makes every Bentley so distinctive. With its unrivalled elegance and tranquil ambiance, this exceptional addition to the Bentley family is everything you'd expect from a Flying Spur.

You'll discover intuitive technology features that make every journey effortless, along with an intelligent navigation system that calculates when to use electric propulsion and when to use the internal combustion engine, maximising efficiency and range. This, paired with enhanced Connected Car features that allow you to start your car charging remotely, have the potential to transform every journey into a truly seamless electric experience.

Discover every feature of the new Flying Spur Hybrid for yourself and configure your own specification [here](#).

## The Flying Spur V8.

Harnessing the same 4.0 litre engine as the Continental GT, the Flying Spur V8 offers a tenacious and engrossing drive that can be enjoyed by drivers and passengers alike.

The potent, lighter engine enables impressively agile handling, employing its 8-speed ZF dual-clutch transmission for smooth acceleration and quick gearshifts. You can expect rapid acceleration from 0 to 60 mph in 4.0 seconds (0 to 100 km/h in 4.1 seconds) before powering onto a top speed of 198 mph (318 km/h). The lighter engine, combined with other elements, creates an overall weight saving of 120 kg.

At once dramatic and arresting, the exterior of the Flying Spur V8 subtly displays its V8 status through fender badges and quad oval tailpipes. Its striking black radiator matrix grille with vertical vanes also make for a compelling and impactful identity.

Cutting-edge technology is seamlessly integrated to enhance every journey. Bentley driver assistance systems enable easy navigation of urban and cross-country environments, while Connected Car services provide smart, safe and convenient features which can be accessed in-car or even while you are apart from your vehicle via the My Bentley app.

Explore the unique features of the Flying Spur V8 in detail and configure your own specification [here](#).

Flying Spur V8 WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 22.2 (12.7). Combined CO<sub>2</sub> – 288 g/km.

## The Flying Spur W12.

With a formidable 6.0 litre W12 engine, this is the pinnacle of the Flying Spur range. It combines breathtaking power, effortless acceleration and agile handling for an exhilarating yet sophisticated driving experience, reaching 0 to 60 mph in 3.7 seconds (0 to 100 km/h in 3.8 seconds) and a maximum speed of 207 mph (333 km/h).

Its sharp lines, sculpted form and beautifully balanced proportions combine to create a commanding presence. This is further enhanced by an abundance of considered details, including a vertical vane matrix grille, a range of exclusive 21" and 22"\*\* wheels and an illuminating Flying 'B' bonnet mascot.\*

Authentic materials and artisan craft create a refined, cossetting and unique interior. The handcrafted cabin provides a spacious, tranquil environment wherever you sit, with an intricate lofted diamond seat design,\*\* three-dimensional diamond quilted leather door panels\*\* and a sculpted centre vent.

For a truly luxurious experience, the optional four seat configuration offers two individual armchair style seats in the rear, enveloping passengers in complete comfort. In addition, the elongated centre console\* spans the entire length of the interior, providing a stowage area for personal items and in-car technology. A space so inviting, it sets a new benchmark for luxury interiors, seamlessly fusing intuitive technology which can be operated from both the front and rear of the cabin.

Whether you are crossing continents or on an urban commute, this is grand touring taken to new heights. Configure yours using our [online configurator](#).

\*Cost option.

\*\*Available as part of the Mulliner Driving Specification.

DESIGN

## Assertive, yet graceful.

The first thing you notice about the Flying Spur is its striking lines.

The elegant roofline gives an immediate impression of speed, as does the sweeping power line that flows from the headlamps and runs along the side of the car. The muscular haunch line over the rear wheel adds an assertiveness to its stance that hints at the car's immense power.

The crisp, sharp signature lines on the Flying Spur could never have been achieved by conventional means. The smooth, seamless panels are created by superforming – a process where aluminium is heated to 500°C and

shaped by air pressure. With the largest super-formed panel ever seen in the automotive world, the Flying Spur has a stunning, unified feel.

The long and sleek profile has been enhanced by moving the front wheel forward and raising the bonnet, creating balanced proportions that combine the distinctive Bentley DNA with a modern, sculpted look.

Exclusive 22" wheels\* provide the perfect finishing touch.

\*Available as part of the Mulliner Driving Specification.

## A striking presence.

While the profile of the Flying Spur emphasises its speed and grace, a host of stunning details at the front and rear of the car underline the more imposing side of its character.

Chrome vertical vanes in front of the signature Bentley matrix grille add to the car's commanding presence. To enhance the contemporary look further, all exterior chrome elements such as this can be replaced with a striking gloss black finish.\*

Jewel-like LED matrix headlamps transform light with an eye-catching cut-crystal effect that ensures they continue to sparkle, even when they're not lit.

The tail lamps are equally impressive. Designed around the signature Bentley 'B' shape, they contain an intricate diamond knurling pattern that echoes the knurling on the controls inside the car.

## A sense of flight.

A chrome bonnet strip leads your eye to a feature that has not been seen on a Flying Spur since the 1950s: the iconic Flying 'B' mascot.\*

Completely redesigned for our second century, its form was inspired by a bird of prey, poised and serene when stationary but immensely powerful and agile when in motion – much like the Flying Spur.

Cast from virgin stainless steel, the bonnet mascot is hand-polished and crafted using a process normally reserved for turbine engines, allowing the creation of its distinctive and instantly recognisable form.

The Flying 'B' fuses a simple, minimalist shape with a contemporary approach. When the car is unlocked, the mascot electronically deploys from its stowed position as the wings' feathers illuminate in an order that is perfectly synchronised with a welcoming glow from the headlamps.

\*Cost option.

# PERFORMANCE

Imposing, yet agile.

The Flying Spur may take the form of a spacious four-door car but, at its heart, lies the exhilarating spirit of a powerful grand tourer.

Its immense power and agile handling is the result of our hundred-year journey to create such a car, as envisioned by W.O. Bentley himself: "a fast car, a good car, the best in its class".

## Exceptional control.

The phenomenal power of the Flying Spur is delivered in a sophisticated way, for an engaging, highly controlled drive.

Active All-Wheel Drive monitors the level of grip and adapts to provide exceptional confidence at all times. Featuring a map-controlled, electronic multi-plate clutch, its sensors constantly monitor the rotation of each wheel. By combining this data with the overall velocity and lateral acceleration of the chassis, the car can respond to changes in road conditions instantaneously.

In normal road conditions, it delivers two-wheel drive to the rear for an engaging driving experience. But when required, it instantly distributes more torque to the front to maximise traction.

Bentley Dynamic Ride\*, an innovative 48 V Electronic Active Roll Control system, ensures exceptional responsiveness in all road conditions. Electronic actuators on the anti-roll bar of each axle automatically adjust to enhance both handling on corners and ride comfort.

A torque-vectoring-by-brake system improves response and agility. It automatically employs braking on the inside rear and front wheels if necessary when cornering to ensure optimal turn in and grip both during and when exiting the corner.

\*Cost option on Flying Spur V8,  
not available on Flying Spur Hybrid.

## Sustainable power.

The new Flying Spur Hybrid balances speed and power with forward-focused technologies to create an exceptionally advanced and progressive vehicle. Its innovative combination of a 2.9 litre V6 combustion engine and powerful E-Motor injects effortless power into every drive, for rewarding journeys in the city and beyond.

With twin, counter-rotating turbochargers located inside the V of the engine for a faster throttle response, the 2.9 litre V6 engine combines seamlessly with the E-Motor to provide an impressive 750 Nm (553 lb ft) of combined torque. This allows the Hybrid

to go from 0 to 60 mph in just 4.1 seconds (0 to 100 km/h in 4.3 seconds), before surging on to a top speed of 177 mph (285 km/h). With electric-only driving, it can reach an impressive 87 mph (140 km/h).

When you head to the open road, you'll find the exhaust note of the V6 petrol engine is especially pleasing when the throttle is opened wide. Advanced chassis systems are designed to balance comfort with pure driving pleasure.

Three intelligent driving modes ensure that you can enjoy the most serene and efficient drive at all times. The EV Drive mode maximises

electric drive for short journeys and city driving, while Hold is designed to preserve battery charge for when you need it. Hybrid mode intelligently combines the V6 engine and E-Motor to maximise range and performance.

The elegant recharging unit enables you to recharge your Flying Spur Hybrid between drives from the comfort of your home. With over 40 km (or 25 miles) of electric driving on a single charge, you can complete regular journeys in full electric mode.

## Phenomenally exciting.

The Flying Spur V8 offers a spirited performance, characterised by its tireless agility and responsive handling. This immersive V8 experience, made possible in part by the lighter nature of the engine, is enhanced by incredible acceleration and the characteristic burble of the emotive exhaust note.

Generating a peak of 550 PS (542 bhp, 404 kW) it reaches its maximum torque value of 770 Nm at just 2,000 rpm, maintaining this through to 4,500 rpm. This ensures that rapid acceleration is available across a wide engine speed range. These impressive figures provide a 0 to 60 mph

time of 4.0 seconds (0 to 100 km/h in 4.1 seconds) and a maximum speed of 198 mph (318 km/h).

The Flying Spur V8's speed and power are matched by technology that's specially designed to enhance every drive. Two Twin-Scroll Turbo Chargers create parallel flow channels in the turbine housing, allowing for high torque at low speeds. Meanwhile, the addition of a Dual Mass Flywheel serves to dampen oscillations between the engine and the driveline, resulting in a remarkably smooth ride.

An adaptive tailpipe control valve has been introduced to optimise the sound character difference between sport and drive mode.

The way that gas flows into the rear half of the exhaust system creates a more discreet exhaust note inside the cabin for passengers, whilst retaining the characteristic V8 burble.

For the driver and their passengers, the Flying Spur V8 provides the perfect experience. This is a luxury saloon like no other.

## Formidable power.

Built at the Bentley factory in Crewe, the 6.0 litre W12 engine at the heart of the Flying Spur W12 embodies our drive to provide world-class performance. It delivers 626 bhp (635 PS) of power and 664 lb ft (900 Nm) of torque to provide a seemingly never-ending surge of acceleration, propelling the car from 0 to 60 mph in 3.7 seconds (0 to 100 km/h in 3.8 seconds) – and on to an exhilarating top speed of 207 mph (333 km/h).

An eight-speed, dual clutch transmission pre-selects the next gear before the gearshift takes place, improving torque delivery and ensuring smooth and fast gear shifts with a seamless surge of acceleration. Maximum speed can be reached in sixth gear, with seventh and eighth gears reducing fuel consumption when cruising – perfect for grand touring.

The Flying Spur W12 is at the cutting edge of automotive engineering, with performance credentials that deliver class-leading speed, drivability and handling – without compromising on Bentley's benchmark ride refinement.

## Perfect for crossing cities, or continents.

Whether you're negotiating city streets or enjoying the open road, the Flying Spur has the versatility to deliver a rewarding driving experience, tailored to your surroundings.

The intelligent Electronic All-Wheel Steering\* system adapts to suit whatever driving speed you choose. At low speeds, the rear wheels will turn up to 4.1 degrees in the opposite direction to the front wheels. This effectively shrinks the car's turning circle, benefiting city drivers who need to negotiate tight spaces. At high speeds rear wheels turn up to 1.5 degrees in the same direction as the front wheels, giving the car extra agility and inspiring confidence with its stability.

Electronically tuned air suspension further refines the driving experience. It uses three-chamber air springs to create a large air volume, elevating both ride comfort and dynamic handling, with continuous damping control adjusting the volume of air to ensure a smooth, comfortable ride.

The W12 and V8 engines utilise variable Displacement Technology to enhance engine efficiency, by shutting down half the cylinders when they're not required, and reactivating them again as soon as they're needed – without the driver even noticing. The hybrid system, on the other hand, shuts down the internal combustion engine entirely and switches to electric-only propulsion when cruising, seamlessly re-incorporating it when required.

With the largest 6-piston iron brakes in the world, the Flying Spur delivers fast and effective stopping power, courtesy of technology originating in the aerospace industry. On the Flying Spur Hybrid, the brakes have been optimised in size and weight to work in harmony with the regenerative braking of the E-Motor, ensuring a smooth and effortless deceleration.

\*Cost option on Flying Spur V8,  
not available on Flying Spur Hybrid.

# TECHNOLOGY

## Advanced, yet instinctive.

Wherever you sit in the Flying Spur, intelligent technology is presented in an intuitive way, giving you complete control.

For the driver, a unique Digital Instrument Display presents all the information you need clearly and simply. You can choose between a classic or expanded view and select where and how the vehicle speed is displayed.

For both driver and front passenger, the Central Display allows you to have control over every element of your journey. The 12.3" HD touchscreen can show one single function or be divided into two or three sections. You can access the driver assistance features, entertainment and navigation plus all technology and comfort features.

For the rear-seat passengers, the precision-crafted Touch Screen Remote allows you to stay connected with the front cabin, move the seat positioning and share information with the navigation system. The Remote also gives passengers control of the rear cabin environment, such as the window blinds and airflow. It sits within the centre console, and can be removed at the touch of a button, so you can perfect your surroundings while sitting back in the comfort of your seat.

## Digital, or analogue. In perfect harmony.

At Bentley, we believe in fusing technology with craft to make a journey feel extraordinary in surprising new ways.

The optional Bentley Rotating Display is unlike any other automotive display. When you enter the Flying Spur, the beautiful veneer of the fascia is punctuated only by the vents and the driver display. But when you start the engine, the central section of the veneer rotates to reveal the 12.3" HD touchscreen.

If you want to leave the digital world behind, you simply press a button and the display rotates again to reveal three analogue dials surrounded by jewel-like polished chrome bezels, capturing the grand touring spirit of a bygone era in a distinctly modern way.

Or if you want to focus purely on the road, just press the button once more and the display rotates back to its original position, for an uninterrupted stretch of veneer running across the fascia.

## All the assistance you need.

Whether you're travelling across continents or moving through urban environments, the Flying Spur employs a wealth of driver assistance features that make every journey effortless.

Adaptive Cruise Control\* regulates the speed of the car, relative to the vehicle in front. Radar sensors scan the road ahead, enabling you to maintain your chosen speed. If the car in front slows, so does yours – right down to a stop, if required. When the traffic starts to move again, your car accelerates to your selected cruising speed, all without your feet ever touching the pedals.

Blind Spot Warning monitors the area immediately to the sides and the rear of the car. If you attempt to move into a lane where another vehicle is approaching, a visual warning is displayed on the exterior mirror. Active Lane Assist,\* meanwhile, uses a video camera to detect any drifting across lane boundaries, making small corrections as necessary.

Integrated Traffic Sign Recognition\* detects speed limits, including temporary speed restrictions, as well as zones in which overtaking is prohibited. The information is displayed in the digital instrument cluster and the optional Head-Up Display.

The Park Distance function sounds a warning if the car gets too close to a parked vehicle at the front or the rear. A visual warning also appears on the touchscreen, alongside the view from the rear-facing camera. Park Assist can even search for a suitable car parking space and then operate the steering wheel to park the car, while you control the brake and accelerator.

Three more cameras fitted around the car enable it to display a 360-degree view\* when parking – you can even opt to see the view from each one. Exit Warning alerts you to approaching traffic when opening the door, while Rear Crossing Traffic Warning assists you when reversing out of your parking space.

All these features work seamlessly together to ensure that this is a car you can drive with complete confidence at all times.

## Intuitively connected.

The Flying Spur is poised and equipped with a cutting-edge suite of Connected Car services, harnessing real-time information to respond intelligently to the ever-changing world around you. These intuitive services are accessed seamlessly in-car, or remotely via the My Bentley app – the ultimate partner to any Bentley owner – ensuring your journey and your daily life is smarter, safer and more convenient.

### Smart

Real-time traffic information gathers up-to-the-minute traffic data into the navigation system, enabling you to plan more effectively and avoid traffic congestion by dynamically re-routing your journey. Google's online search provides easy, voice-controlled access to information about notable locations you may encounter on the way, while news and weather feeds update as you drive.

### Safe

Innovative safety features include Private eCall\* and Roadside Assistance, which automatically connect you to the Bentley Roadside Assistance team in the event of an accident, establishing your location and condition of the vehicle. Furthermore, Theft alert and Perimeter alert will send you push notifications if your car leaves a predefined geographical area or if the alarm is activated.

### Convenient

Useful features and tools let you prepare for the journey ahead, even when you're apart from your Bentley. The Activate Heating<sup>†</sup> function allows you to adjust the climate control when away from your car, preparing your cabin and passenger area with an optimum temperature before you even enter it. Meanwhile, Find My Car ensures you always know where you last parked, even in the largest of car parks. With the My Bentley app, you can even check the status of your locks, lights, mileage and fuel.

### Always on

The My Bentley app is quite simply your essential companion, allowing you to stay connected to your car, wherever you are in the world. From knowing where it is, accessing its status, locking it and controlling specific functions, it provides the ultimate convenience.

Every aspect of the My Bentley app benefits from automatic updates, meaning new features will be deployed and improved without you having to tap a finger. Simply search and download the My Bentley app on the App Store or Google Play.

\*Cost option.

<sup>†</sup>Optional remote park heater required on W12 or V8.

## Lead the charge.

The new Flying Spur Hybrid brings together unrivalled connectivity and technology with a range of forward-looking features designed to elevate your journey.

In addition to the core suite of My Bentley Connected Car services, the Flying Spur Hybrid includes exclusive features made to enhance your electrified journeys further. Accessed via the My Bentley app, tools such as My Battery Charge allow you to initiate charging remotely, while the E-Charging service lets you find charging stations near you, however far you've travelled from home.

You can also control the enhanced driving environment with My Cabin Comfort. This feature allows you to either heat or cool the cabin to an optimal temperature before you reach your car, enabling you to begin every journey in maximum comfort, and with maximum battery range, as the amount of stored energy required to alter the temperature of the cabin is minimised.

Innovative technology will change the way you drive too. When travelling in Hybrid mode, the Intelligent Navigation System maximises range and efficiency by choosing the most appropriate power source for each stage of your journey. If you're making your way through a low emissions zone, for example, it will adapt for this, making sure the battery holds enough power in reserve during the earlier stages of your drive.

When decelerating, intelligent coasting optimises the efficiency of your journey by choosing the right level of deceleration and energy recuperation, depending on what vehicles or obstacles lie ahead.

For your ease, predictive messages and icons are displayed on the digital Driver's Information Panel to inform you of obstacles ahead, such as junctions and roundabouts – and even signals the optimum time for you to release the accelerator pedal for added efficiency.

## Bright ideas.

Driving the Flying Spur is always effortless – day or night.

LED matrix headlamps\* allow the lights to stay on full beam at all times, enhancing visibility and helping you stay focused on the drive. The technology detects oncoming vehicles and automatically deactivates the appropriate section of the LEDs to avoid dazzling the approaching driver, while the rest continue to illuminate the road ahead.

An optional Night Vision camera uses infra-red to monitor the road up to 300 metres ahead. This allows you to detect obstacles beyond the range of the headlamps, with people or animals highlighted in yellow on the driver's instrument panel. If there is a risk of collision, the yellow turns to red and a warning sounds, while the headlamps flash a targeted beam three times to warn both the driver and the pedestrian.

\*Market-specific availability.

## A place to relax.

The cabin of the Flying Spur is carefully composed to create a welcoming and revitalising environment for any journey and every mood.

You can delight your ears with a choice of three stunning audio systems, including one by Naim\* and another by Bang & Olufsen.\*

An active carbon filter traps dust, pollen and other particles, ensuring the atmosphere inside the car remains fresh at all times. An optional ioniser can also be chosen for even cleaner air.

\*Cost option.

# INTERIOR

## A space to be inspired.

The spacious interior of the Flying Spur combines the finest natural materials with expert craftsmanship. A wealth of intricate details come together to enhance the comfort and wellbeing of every occupant, creating an environment that is as inspiring as it is calming.

The refined, open feel of the front cabin allows the driver to focus on the road uninterrupted, with additional wireless charging\* for ultimate convenience; while the spacious rear cabin cocoons the passengers in unrivalled surroundings.

You can choose from the versatile five seat configuration, providing three rear seats as shown, or the optional four seat configuration\*, which includes two sumptuous armchair style seats in the rear with an expansive centre console – a practical and contemporary stowage area featuring charging ports, with a wireless option available, a drinks holder and the innovative Touch Screen Remote.

Above it all is a glass-to-glass panoramic sunroof\* that fills the cabin with natural light. With a fixed panel of glass at its rear, the front panel tilts and slides over it to let fresh air in, while electric Alcantara blinds, colour-matched to your interior, provide shade whenever you wish. A function in the Touch Screen Remote allows all the rear cabin and sunroof blinds to be closed or opened simultaneously with one touch.

Truly, the Flying Spur is the pinnacle of luxury.

\*Cost option.

## When design takes flight.

The design of the cabin is inspired by the Bentley wings marque, creating a beautiful, harmonious, flowing interior.

At its heart is a dramatic floating centre console. Its length accentuates the graceful lines that run upwards from it in a wing shape, following the dashboard before continuing across the leather panels on both front and rear doors.

## A world of detail.

The serene atmosphere of the cabin is due in no small part to the level of detail applied to every element.

A stunning central vent sits above the centre console. Beautifully sculpted and precision-crafted, it recalls the shape of the Bentley 'B', and features a Bentley clock with fine bronze detailing at its centre.

A jewel-like diamond knurling is found on the rotary switches and the chrome and black indicator stalks. This knurling can also be applied\* to the bullseye vents, clock and the centre vent, in an echo of the exterior tail lamps.

The seamless knurling pattern on the centre vent alone features 5,331 diamond-shaped pieces, created with a method so complex that a software algorithm was developed to map the facets to its curves.

For the ultimate tactile finish, the Mulliner Driving Specification\* allows you to replace the smooth leather of the door panels with three-dimensional diamond leather upholstery, an effect never before seen in the automotive world.

\*Cost option.

## Sitting comfortably.

The seats of the Flying Spur are designed to make even the longest grand tour a pleasure.

With a twin flute seat design, the seats are as comfortable as they are elegant. A world of adaptable features includes adjustable side bolsters and rolling nose cushion extensions in the front seats, and a top tilt mechanism, electrically adjustable headrests and ventilation and massage functions in both front and rear seats – all as standard.

Three people can sit comfortably in the rear, but when there are only two rear passengers, the centre headrest can be stowed to enhance driver visibility. A heated central armrest also folds down to add to the feeling of being cocooned in a tranquil environment.

For a particularly dramatic effect, the Mulliner Driving Specification,\* shown here, introduces a lofted diamond seat design. Combining intricate stitching and embroidery, it features an elegant series of ever-lengthening diamonds tumbling down the seat.

## Detail designed to be appreciated.

Beyond anything previously offered from an automotive manufacturer, the Flying Spur can be commissioned with an optional solid wood door panel with three-dimensional diamond design, crafted by Mulliner\*. The solid timber door inserts are cut into a striking, diamond shaped, geometric pattern with a three-dimensional surface.

Only the finest grades of sustainably sourced American Walnut or American Cherry are selected. Each panel is crafted from solid timber, strikingly impactful with a real physical presence; adding a beautiful sense of tactility to the rear of the cabin.

To achieve the three-dimensional surface, skilled operators carve the wood with a multi-axis routing machine, then hand finish for a perfect result. An open pore lacquer is added, allowing the colour and texture of the wood to shine through for a refined, natural appearance.

Three additional different door pad options are available for the Flying Spur. The standard leather offers an understated yet sophisticated style, while the three-dimensional leather\* option – available with the Mulliner Driving Specification – provides an intricate three-dimensional diamond quilted finish. Alternatively, the veneer\* door pads are designed to match the fascia and waistrails for a sleek and technical appearance.

The Côtes de Genève finish available on the centre console is machined from side to side on aluminium just 0.6 mm thick. Each row is 5 mm wide and machined at an angle to give a truly three-dimensional finish.

Electronically deployed picnic tables, with a veneer outer surface and hide trimmed inner surface, can be used at your leisure, providing a convenient resting area for personal items.

# PERSONALISING YOUR CAR

## Designed by Bentley. And by you.

Every attribute of the Flying Spur has been considered from every angle by the expert designers and engineers at Crewe. Each aspect combines the finest materials with skilled craftsmanship to create something truly captivating.

When you commission your car, you can make those details even more special by choosing the ones that resonate with you. Over the following pages, we take a look at the almost endless possibilities that allow you to make your Flying Spur your own.

## Exterior finish.

Our designers have made the exterior of the Flying Spur breathtaking. But you can take it one step further by making it reflect your individual style.

Choose from over 80 optional paint colours, including the breathtaking new Cambrian Grey which possesses a strong performance feel.

The newest palette of Mulliner paints adds a vast range of solid, metallic, satin and pearlescent options, while Personal Commission Paint by Mulliner allows you to match a colour that is as unique as you are.

Alternatively, you can choose from the seven standard exterior colours available with the Flying Spur V8 and Hybrid, and 16 with the W12 model.

## Standard V8 and Hybrid colours.

- Beluga
- Dark Sapphire
- Glacier White
- Moonbeam

## Veneers.

Our veneers are sustainably sourced from forests around the world. The Flying Spur comes with Crown Cut Walnut veneer as standard, its horizontal straight grain adding to the feeling of spaciousness.

There are also nine other single veneers to choose from, with or without a chrome pinstripe running along the centre. Or you can opt for one of six dual veneers, each contrasting a different wood above the pinstripe with a gleaming black veneer below.

Carbon Fibre is available for the fascia and front door panels, for those seeking a contemporary, motorsport-inspired feel.

Genève

Please refer to specifications and options on pages **51 to 56** for standard and optional veneers.  
Please note, the colours reproduced are for representation purposes only and therefore vary slightly from the actual vehicle.

## Hides.

Every inch of the interior of the Flying Spur is upholstered by hand. Crafting the hides is a time-honoured process that involves skills that take years to learn.

From the seats to the steering wheel, every part of this extraordinary car requires a different approach. Which is why sections of the hide with high natural elasticity are used for curved surfaces like the seats, rather than for piping or flatter areas such as door inserts. The steering wheel, meanwhile, is covered in a different type of leather, more resistant to the natural chemicals it absorbs from the driver's skin.

With a choice of 15 hide colours that can be arranged in single tone or duo-tone combinations, matching or contrasting stitching, hand-cross stitching, seat piping and adjustable accent lighting, you can personalise the interior of your Flying Spur to create a look that is truly unique.

Beluga

Brunel

Burnt Oak

Camel

Cricket Ball

Cumbrian Green

Damson

Hotspur

Imperial Blue

Linen

Magnolia

Newmarket Tan

Porpoise

Portland

Saddle

## Blackline Specification.\*

For a dramatic, purposeful look, the Blackline Specification adds a brooding character to the Flying Spur. Replacing all exterior polished chrome with all-black brightware, it includes side window surrounds, wing vents and lower door brightware, rear bumper brightware, front headlamp bezels, radshell matrix, surround and centre bar, door handles, rear number plate surround, rear lamp bezels and exhaust tailpipes.

## Styling Specification.\*

Offering a range of additions in carbon fibre, the material of choice for the motorsport industry, the Styling Specification adds to your car's dynamic exterior. Elements include a front splitter, side sills, rear diffuser and boot lip spoiler.

\*Cost option.

## Mulliner Driving Specification.

The Mulliner Driving Specification\* brings the distinctive Mulliner aesthetic to the interior of your Flying Spur, elevating the unique design of your Bentley even further. Its considered style includes lofted diamond-quilted seats, three-dimensional leather door panels, leather headliner, drilled sports pedals, embroidered Bentley emblems, a heated duo-tone indented hide trimmed steering wheel and an additional choice of Piano Black or Dark Stained Burr Walnut veneers. Exclusive 22" wheels<sup>†</sup> and stunning fuel and oil filler caps provide the perfect finishing touches to the exterior.

# Flying Spur packages.

To make it even easier to specify your Flying Spur, our engineers and designers have created groups of features, from technology packages that make driving easier to collections of exquisitely crafted styling enhancements.

## Touring Specification\*

- Active Lane Assist
- Adaptive Cruise Control and traffic jam assist
- Bentley Safeguard Plus
- Night Vision
- Head Up Display

## City Specification\*

- Traffic sign recognition
- Hands free boot opening
- City assist
- Reverse traffic warning
- Top view camera\*
- Automatic dimming mirrors

- First Edition Exterior Badge
- First Edition Interior Embroidery
- First Edition Treadplates
- Electrically deployed and illuminated Flying 'B' made of bright polished stainless steel
- Bentley Rotating Display
- Touring Specification Mood Lighting Specification
- Dual Finish Veneer
- Mulliner Driving Specification with 22" Wheel
- Deep Pile Overmats
- Contrast Stitching

## Create your own alluring combination.

It takes the juxtaposition of many contrasting elements to create the modern alchemy of the Flying Spur. All you have to do is find the combination that reflects your unique style. To start your extraordinary journey, explore the Bentley Configurator at [BentleyConfigurator.com](http://BentleyConfigurator.com)

## Financing your Flying Spur.

Our finance agreements are tailored to ensure you make the most of your investment.

While other financiers look only at the circumstances of the customer, Bentley Financial Services creates bespoke packages, based not just on your needs and income, but also on the car you have in mind.

To discover more, please visit your local Bentley retailer or visit [BentleyMotors.com](http://BentleyMotors.com)

## Experience it for yourself.

As with every Bentley, there is only one way to truly appreciate this car – to sit in the driving seat, take the wheel in your hands and feel the breathtaking surge of acceleration as you put your foot down.

To take the next step in the journey of acquiring your Flying Spur, we recommend a conversation with a Bentley retailer. You can find your nearest showroom at [BentleyMotors.com](http://BentleyMotors.com)

WORLD OF BENTLEY

## The Bentley Collection.

The Bentley Collection comprises a selection of lifestyle products inspired by the design, craftsmanship and performance of Bentley's cars. With many items lovingly crafted by highly skilled artisans, the Bentley Collection takes our exciting heritage and vision for the future, and seamlessly weaves it into extraordinary statement pieces.

From stylish accessories to exquisite finishing touches for the office or home, every item captures Bentley's inherent qualities of craftsmanship, tradition, exclusivity and style.

To view the complete Bentley Collection range, please contact your local Bentley retailer or visit the online store at [BentleyCollection.com](http://BentleyCollection.com)

## The Bentley Experience.

With the opportunity to visit our Crewe factory, the Bentley Experience offers a unique insight into the design and engineering required to create a Bentley.

See the full model range and explore a dedicated personalisation area, bespoke Mulliner room and Bentley boutique, for a window into the world of the Bentley brand.

To register your interest and find out more, please contact your local **Bentley retailer**.

## Bentley events.

We run a number of events each year for Bentley drivers and enthusiasts.

From the Extraordinary World programme, which offers the opportunity to explore some of the most remote and beautiful landscapes in the world from the luxury of Bentayga, to exclusive drives through Europe experiencing the finest cuisine and culture on offer, there is a Bentley event to satisfy everyone.

To discover more, please visit your local Bentley retailer or visit [BentleyMotors.com](http://BentleyMotors.com)

## The Bentley Network.

Imagine an app that puts the world of Bentley in your hands.

The Bentley Network app provides access to essential owner services, an exclusive line of communication with Bentley and membership of a global community of like-minded owners – placing the future of Bentley, quite literally, at your fingertips.

Available exclusively to Bentley owners, the app is a fast track to a world of unique events – with priority invitations to everything from thrilling driving experiences to intimate dinners and some of the most exhilarating races in the global motorsport calendar.

Through the Bentley Network app, you will be the first to hear our latest news, announcements and exclusive content. You can also share your ideas, inspiration and experiences with an online community of like-minded owners.

Simply search for 'Bentley Network' on either the Apple App Store or the Google Play Store.

## SPECIFICATIONS & OPTIONS

# The new Flying Spur Hybrid.

## STANDARD SPECIFICATION

### POWERTRAIN AND VEHICLE DYNAMICS

- 8 speed dual clutch transmission
- Active all-wheel drive
- Quad oval exhaust finishers
- 3 chamber air suspension with continuous damping control (CDC)
- Electronic Stability Programme (ESP) with Traction Control (TCS) / Anti-lock Braking System (ABS) / Electronic Brake Force Distribution (EBD) / Hydraulic Brake Assist (HBA) / Drag Torque Control (MSR).
- Dynamic ride-height control (auto-adjusts at speed) + ground clearance function
- Drive dynamics control
- Electronic tyre pressure monitoring sensors (TPMS)
- Front vented 410 x 38 mm disc brakes with Bentley branded black brake callipers
- Rear vented 380 x 30 mm disc brakes with Bentley branded black brake callipers
- Electronic parking brake with drive away assist
- Brake pad wear indicator
- Torque vectoring by brake

### EXTERIOR

- Choice of seven standard paint colours: Beluga (solid), Dark Sapphire, Glacier White (solid), Moonbeam, Onyx, St. James' Red (solid), Thunder
- 21" 10 spoke wheel – bright painted (available in China only)

- Black gloss matrix grille with chrome surround and vertical vanes
- Black lower bumper matrix style grille with bright surround
- Bentley wing badges to bonnet and boot

- Chrome 'BENTLEY' lettering to Boot
- Chrome bonnet strip
- Hybrid fender badge
- Chrome Flying 'B' design fender vents
- Chrome trim to side window surrounds
- Chrome trim to lower doors, fenders and rear bumper
- Bentley 'B' badges to wheel centres
- 'BENTLEY' branded treadplates to door sills
- Keyless entry remote control, with safe locking and start / stop button
- Power latching to doors
- Body-coloured exterior mirror housings with bright trim
- Electrically adjustable door mirrors with heating, power fold, memory and dip-on-reverse functions
- Extended and crash-active pedestrian protection
- Acoustic, heat-insulating, front screen
- Acoustic side glass with IR barrier
- Heated rear screen
- Tyre inflation kit

### INTERIOR

- Five-seat configuration
- Driver and front passenger airbag with front passenger airbag deactivation
- Side airbags front and rear with curtain airbags
- Child seat anchor for child seat system ISOFIX and rear outer ISOFIX with outer top tether
- Seats with straight fluted style hide cover
- Alcantara pillars and headliner
- Napa leather interior on seats and lower cabin
- Choice of five hide colours
- Monotone interior colour split
- Front seats – electric 24-way adjustment with heating, ventilation, massage, adjustable

bolster function and two memory positions

- Single front centre armrest with heating and fore / aft slide adjustment
- Heated armrests to all four doors
- Rear seats – electric 14-way adjustment with heating, ventilation, massage and two memory positions
- Super soft alcantara headrest cushions to rear seats
- Fold-down, heated rear centre armrest with stowage, twin cup holders 12V socket and two USB charging points
- Seatbelts colour-matched to hide colour, with hide-trimmed buckles
- Crown Cut Walnut veneer
- Metal bulls-eye vents with organ stops
- Sculptural centre air vent with Bentley analogue clock – bright polished
- "Diamond" knurling to rotary switches and column stalks
- Leather trimmed gear lever
- Steering wheel mounted gearshift paddles
- Single tone, three-spoke, hide trimmed steering wheel
- Deep pile cabin carpets
- Boot carpet in Beluga
- Two cup holders to the front centre console
- Lockable, cooled, glove box
- Stowage to four doors and front and rear centre consoles
- Sun visors with illuminated vanity mirrors
- Footwell illumination and ambient lighting
- Treadplates inner with 'Hand built in Crewe, England' insert
- Electrically operated blinds for rear side windows and rear screen

### TECHNOLOGY AND DRIVER ASSIST

- Full LED Matrix headlamps with high-beam assist
- Welcome Lighting

- Full LED tail lamps
- Rain sensing windscreen wipers
- Electric tilt-and-reach adjustment steering column with memory and easy-entry functions
- Cruise control
- Reversing camera with graphic screen representation
- Front and rear park distance control
- Park assist
- Exit warning
- Blind spot warning
- Auto dimming interior rear view mirror
- Multi-zone automatic climate control
- Cabin Air Ioniser
- Touch Screen Remote control for rear cabin
- Engine stop / start button
- 12V power sockets (x2 cabin, x1 boot)
- Alarm and immobiliser
- Boot lid down lighters
- External battery charge point

### AUDIO AND COMMUNICATION

- Infotainment system with 12.3" HD touch screen display. Proximity sensors and hard key controls. Digital radio, HDD-Navigation, advance music interface, (AMI), single DVD/CD slot, two SD card slots, Bluetooth (A2DP) and WiFi (uPnP) streaming.
- Navigation – featuring text-to-speak, voice destination entry and 3D building display
- 60Gb solid-state hard drive
- Hidden antennae
- Digital TV tuner\*
- 4G LTE telephone module\*
- Bentley Audio system, 10 speakers, 650 watts, 11 channel amplifier

### SPECIFICATIONS

## OPTIONAL SPECIFICATION

### POWERTRAIN AND VEHICLE DYNAMICS

- Front vented 420 x 40 mm disc brakes with Bentley branded red brake callipers
- Rear vented 380 x 30 mm disc brakes with Bentley branded red brake callipers

### EXTERIOR

- Bright chromed matrix grille behind vertical vanes
- Bright chromed lower bumper matrix style grille with bright surround
- Illuminated Flying 'B' radiator mascot – bright polished stainless steel
- Illuminated Flying 'B' radiator mascot – black gloss
- Over 70 additional exterior paint colours including Mulliner colours
- 21" 10 spoke Alloy Wheel – polished\*
- 21" 10 spoke Alloy Wheel – grey painted and bright machined\*
- 21" 10 twin-spoke Alloy Wheel – polished\*
- 21" 10 twin-spoke Alloy Wheel – dark grey painted and bright machined
- 22" Mulliner Driving Specification Alloy Wheel – black painted and bright machined\*
- 22" Mulliner Driving Specification Alloy Wheel – polished\*
- 22" Mulliner Driving Specification Alloy Wheel – gloss black\*
- Heated windshield
- Panoramic glass tilt and slide sunroof with twin blinds and vanity mirrors

### INTERIOR

- Four-seat configuration with Long Console
- Semi-aniline leather – seat surfaces
- Contrast stitching to seat and cabin trim including steering wheel stitching

- Seat piping with contrast stitching including steering wheel stitching

- Embroidered Bentley emblems
- Hand cross stitching by Mulliner
- Contrast seatbelts by Mulliner
- Choice of seven additional veneers: Burr Walnut, Dark Fiddleback Eucalyptus, Dark Stained Burr Walnut, Koa, Liquid Amber, Piano Black, Tamo Ash
- Choice of additional open pore veneers: Crown Cut Walnut, Dark Stained Burr Walnut, Koa
- Choice of seven dual veneers applied to the upper fascia, with Grand Black veneer on the lower fascia and centre console
- High gloss carbon fibre – fascia / door waisttrails, with piano black on the centre console
- Engine turned aluminium – fascia / door waisttrails, with piano black on the centre console
- Côtes de Genève centre console
- Diamond knurling to metal bulls-eye vents, organ stops, centre vent and Bentley analogue clock
- Veneered door casings to rear doors
- 3D wood by Mulliner
- Electrically deployed picnic tables
- Refrigerated bottle cooler
- Sports pedals
- Single tone, three-spoke hide & heated steering wheel
- Duo-tone, three spoke, hide & heated steering wheel
- Single tone, three-spoke indented hide & heated steering wheel
- Duo-tone, three-spoke indented hide & heated steering wheel
- Deep pile overmats – front and rear

- Contrast binding to deep pile overmats
- Lambswool rugs by Mulliner – front and rear (in addition to standard overmats)
- Smokers pack

### TECHNOLOGY AND DRIVER ASSIST

- Adaptive Cruise Control, follow to stop and go and traffic jam assist
- Head Up Display
- Heated windscreens
- Park heater with remote activation function
- Remote control garage door opener
- Cabin air ioniser
- Battery charger
- Bentley GPS tracking system
- Inductive phone charger (front console)
- Inductive phone charger (rear console – four-seat configuration only)
- Valet key
- Bentley Rear Entertainment

### AUDIO AND COMMUNICATION

- Bang & Olufsen audio system, 16 speakers, 1500 watts, 16 channel amplifier
- Naim for Bentley audio system, 19 speakers, 2 shakers, 2200 watts and 20 channel amplifier

## The Flying Spur V8

Engine: 4.0 litre twin-turbocharged V8 TSI

Max power: 542 bhp / 404 kW / 550 PS

Max torque: 770 Nm / 568 lb ft

Transmission: 8-speed dual clutch

Driveline: Active all-wheel drive

Top speed: 198 mph / 318 km/h

0-60 mph / 0-100 km/h: 4.0 seconds /  
4.1 seconds

Wheelbase: 3,194 mm / 10 ft 5¾ in

Overall length: 5,316 mm / 17 ft 5¼ in

Width (across body): 1,978 mm / 6 ft 5 in

Width (including mirrors): 2,220 mm /  
6 ft 6½ in

Overall height: 1,483 mm / 4 ft 10½ in

Fuel tank: 90 litres / 19.8 UK gallons /  
23.78 US gallons

Boot volume: 420 litres / 14.83 cu ft

Kerb weight: 2,330 kg / 5,137 lb

Gross weight: 2,980 kg / 6,570 lb

## Fuel consumption (WLTP cycle)

Low: 14.1 mpg / 20 l/100km

Medium: 21.2 mpg / 13.3 l/100km

High: 26.2 mpg / 10.8 l/100km

Extra High: 25.2 mpg / 11.2 l/100km

Combined: 22.2 mpg / 12.7 l/100km

CO<sub>2</sub> combined: 288 g/km

Driving range: 441 miles / 709 km

## Fuel consumption (NEDC Cycle WLTP Equivalent – Europe)

Urban: 17.1 mpg / 16.5 l/100km

Extra Urban: 32.1 mpg / 8.8 l/100km

Combined: 24.4 mpg / 11.6 l/100km

CO<sub>2</sub> Emissions: 270 g/km

Combined driving range: 482 miles / 776 km

## Fuel consumption (NEDC Cycle – ROW\*)

Urban: TBC mpg / TBC l/100km

Extra Urban: TBC mpg / TBC l/100km

Combined: TBC mpg / TBC l/100km

CO<sub>2</sub> Emissions: TBC g/km

## Fuel consumption (EPA cycle\*)

City driving (US): TBC mpg

Highway driving (US): TBC mpg

Combined (US): TBC mpg
