THE BENTAYGA RANGE

The Bentayga range

A showcase of Bentley's latest automotive technology, the Bentayga fuses luxury and performance to inspire exploration without limits. Modern, distinctive and commanding, it unites cutting-edge design and innovation, resulting in an unsurpassed driving experience.

Every Bentayga is available with a choice of two powertrains – a thrilling V8 petrol engine or a serene, efficient V6 hybrid. Whichever you choose, you will enjoy the same unique combination of all-road performance, unrivalled ride comfort and incomparable on-road handling that you expect from a Bentley SUV.

The Bentayga has the power to take you and your passengers wherever you want to go, from the city to the open road and beyond. So what are you waiting for?

Bentayga Azure (V8) WLTP drive cycle: fuel consumption, mpg (l/100 km) – Combined 22.1 (13). Combined CO₂ – 296 g/km.

Three exquisite models

Incredibly powerful, exquisitely luxurious and packed with the latest lifestyle-enhancing technology, the Bentayga can be commissioned in your choice of three stunning models.

Bentayga

Luxury, performance, practicality and go-anywhere capability in perfect balance.

V8 or V6 hybrid.

DISCOVER

Bentayga (V8) WLTP drive cycle: fuel consumption, mpg (l/100 km) – Combined 22.1 (13). Combined CO₂ – 296 g/km.

Bentayga

The Bentayga model represents a unique balance of luxurious craftsmanship, exhilarating performance and all-round versatility.

Featuring a chrome surround and centre bar, its black matrix grille sits between two cut crystal-style LED matrix headlamps. A gleaming wing vent, sleek sills and eye-catching 21" wheels ensure it turns heads as it drives past, while jewelled 3D tail-lamps can be seen on the sculpted tailgate.

Inside, meanwhile, natural hides and veneers come together with intricate detailing, in a cabin that can be configured with a choice of three seating options, including four and five seat layouts, plus a new 4+1 configuration. So wherever you need to go and whoever you need to take with you, there is no vehicle better equipped to make every journey a joy.

TO DESIGN

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Bentayga Azure

The Bentayga Azure elevates the SUV experience even further, with a remarkable array of features designed to boost the comfort and wellbeing of everyone on board.

The Harmony Diamond Quilt stitching pattern, for example, adorns the insides of the doors and selected sections of the seats. Sustainable features include open pore veneers, carpets made entirely from recycled nylon and overmats made with 100% wool. Subtle additions such as mood lighting and a duo-tone heated steering wheel, make the cabin feel truly complete.

This is a vehicle in which artisan craft comes together with the latest innovations, from groundbreaking seating technology to options that include the stunning Animated Welcome Lights by Mulliner. In short, the Bentayga Azure is an incredible demonstration of what a Bentley can be.

TO DESIGN

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Bentayga S

Designed to make heads turn and hearts skip a beat, the Bentayga S is an SUV with attitude. Boldly designed inside and out, it is a stunningly crafted SUV. Unique among the Bentayga models, it comes with the Blackline Specification as standard, which means that nearly all the exterior detailing normally finished in chrome is, instead, finished in black. This dark detailing is teamed with black door mirrors and side sills, plus dark tint lamps. Bright red brake callipers, meanwhile, peer purposefully through the scythed 22" wheels.

There is more to this incredible SUV than meets the eye, however. With a sports exhaust on V8 models and an enhanced Sport Mode*, this is a vehicle that makes an unforgettable impression, the moment you put your foot down.

TO DESIGN

*Available with V8 engine only. Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

DESIGN

The big picture

A supreme example of Bentley's design language, the Bentayga is a sight to behold.

From the beautifully crafted grille of each model to the large intakes and sculpted surfaces of the bold lower bumper design, this is a vehicle that makes its presence felt, wherever it goes.

The roof spoiler adds a sleek flourish to the car's profile, as does the 'power line' that runs from the headlamps to the rear haunch – long an important hallmark of Bentley's visual style. Fender vents draw the eye, complementing the lower door mouldings and imposing wheels.

At the rear, jewel-like elliptical tail lamps are set into the tailgate panel, which also features a prominent 'Bentley' badge. Echoing the design of the rear lamps, the bold bumper features oval-shaped split tailpipes.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Exquisite details

The Bentayga is designed to excite at first sight. Yet the closer you look, the more you see.

Echoing the oval shape of the exquisitely jewelled rear lamps, for example, are the oval-shaped split tailpipes. At the front, the three-dimensional interior edges of the LED matrix-beam headlamps evoke a cut-crystal effect. The intricate detailing on the chrome fender vents, meanwhile, has been crafted to gleam brightly in the sunlight, turning onlooker's heads as you drive by.

On entry, you will step over treadplates inscribed with the words, 'Handcrafted in Crewe, England'. You can choose from a wealth of options to enhance your Bentayga even further, including the incredible Animated Welcome Lamps by Mulliner, which project a beautiful swirling light show onto the ground as you open the door. Consider it one more example of the unrivalled attention to detail that makes the Bentayga unique.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Design: Bentayga

Unique to the Bentayga model is a black matrix grille with a chrome surround and centre bar. Bold 21" wheels give the model a strong, imposing stance, countered by the intricate details of the cut crystal-style headlamps and jewelled 3D tail-lamps. This is a vehicle designed specifically to catch the eye, wherever you drive it.

[TO INTERIOR](#)

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Design: Bentayga Azure

The exterior of the Bentayga Azure exudes an effortless elegance, from the polished chrome, vertical-ribbed front grille to the polished 'Azure' badges. The wheels are available in a variety of designs and finishes, in both 21" and 22" sizes, including a stunning new Pale Brodgar Satin painted 22" five-spoke option. Illuminated treadplates light your way as you step inside, where a cabin like no other awaits.

[TO INTERIOR](#)

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Design: Bentayga S

Sheer driving pleasure is reflected in the bold design of Bentayga S. The rear spoiler has been elongated, while the inclusion of the Blackline Specification turns virtually all the chrome detailing black. Speed side sills and a black-painted body kit are complemented by black-painted split oval tailpipes and door mirrors, while 'S' badging and dark-tint lamps complete the purposeful picture.

The incredible 22" wheels feature five angular, scythe-like spokes that point in the same direction, whichever side the car is viewed from, while red brake callipers contrast beautifully with the dark aesthetic.

[TO INTERIOR](#)

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

INTERIOR

Azure

A space like no other

Light floods in from above to illuminate a truly luxurious interior, courtesy of the tilt and slide panoramic roof. Beneath it, the famous Bentley wings marque has once again inspired the architecture of the cockpit. Clad in your choice of handcrafted veneers, the centre console flows upwards via the 10.9" central touchscreen into a fascia that reaches out to the doors, emphasising the cabin's generous width.

But space and light are not the only things that influence comfort. Technology has a role to play too – as it does in the seats, the lighting and even the air conditioning system. Air ionisers in both the front and rear reduce the number of harmful airborne particles, while an enhanced air conditioning system monitors and optimises interior air quality. It's all part of a truly holistic approach to driver and passenger wellbeing.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

A new standard for comfort

The luxurious Front Seat Comfort Specification is included with the Bentayga Azure. It offers a six-setting massage function and 20 different types of adjustments, including headrests, cushions and backrest bolsters, to offer both driver and passengers a truly indulgent and relaxing experience. It also includes Seat Auto Climate, which monitors the humidity and temperature at the surface of each front seat and uses a combination of heating and ventilation to respond automatically, keeping you comfortable at all times. And it includes Postural Adjust, which uses a series of air cushions inside each front seat to vary the pressure on your muscles throughout your journey. Although the effect is imperceptible on the lowest settings, it reduces fatigue significantly, especially when you are in the vehicle for a long time.

If you choose the Five Seat Comfort Specification, Seat Auto Climate and Postural Adjust are available in the front seats. These features become available in the rear as well if you choose the Four Seat Comfort Specification or the new 4+1 Comfort Specification.

The 4+1 Comfort Specification enables you to seat three people in the rear when necessary, without compromising on the comfort available in the two main rear seats. It features a third seat between them, which houses a ski hatch for stowing long loads in the boot. It can also be folded down to form a central armrest, with USB chargers, cup holders and additional stowage space.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

A breath of fresh air

The Bentayga features an intelligent air conditioning system, designed to improve cabin air quality and reduce the number of PM2.5 particles to which you and your passengers are exposed.

The system constantly monitors the atmosphere, both inside and outside the cabin, then filters out the pollutants. The interior and exterior readings can be seen at any time on the 'Air Quality' panel on the central touchscreen. It also models the CO₂ concentration in your car. Provided levels are judged to be low outside the vehicle, clean fresh air is drawn in. If not, the air inside will be recirculated instead.

The system can even detect tunnels as you approach, switching to recirculation mode before you enter, to avoid air pollution inside the tunnel being drawn inside. The moment you exit the tunnel, the system switches back, drawing in fresh air from outside once again. To save energy, it can even detect whether anyone is sitting in the rear seats. If not, performance in the back of the cabin is automatically reduced.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Bentley Diamond Illumination

Controlled from the main infotainment panel or the Touch Screen Remote, Bentley Diamond Illumination allows a series of LEDs built into the upholstery to shine through tiny perforations in the leather, to stunning effect – especially when travelling at night. With varying degrees of intensity and 30 different colours to choose from, it can be synchronised with the cabin's mood lighting or adjusted independently.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Digital details.

The digital driver's information panel behind the steering wheel can be displayed with a choice of different graphic design schemes to match your taste, with three options on the Bentayga model and four on all others. They include designs that reflect the character of the car you choose, be it performance or comfort-focused.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Interior: Bentayga

The handcrafted cabin of the Bentayga sets the standard for modern luxury SUVs. It is a showcase of Bentley interior design, where the latest automotive technology meets traditional craftsmanship and sustainable materials, such as the recycled Nylon used for the carpets.

The cabin itself can be configured with a wide range of seating options. They include the new 4+1 Comfort Specification, which combines two full-featured individual rear seats with the option to deploy a third rear-seat between them. So wherever you need to go and whoever you need to take with you, the Bentayga makes every journey a joy.

[SPECIFICATIONS AND OPTIONS](#)

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Interior: Bentayga Azure

Illuminated treadplates invite you to step inside the Bentayga Azure, where the beautiful Harmony Diamond Quilt features throughout. Mood lighting enhances the unique ambience even further.

The Front Seat Comfort Specification includes both Postural Adjust and Seat Auto Climate – and with ventilation, six massage programmes and a wide range of electrical seat adjustments, you can expect unprecedented levels of comfort.

'Azure' emblems can be seen on the seats and fascia, while the duo-tone heated steering wheel and gear lever feature leather trim. The Colour Specification gives you a choice of fifteen hide colours, so you can create a cabin you won't want to leave.

SPECIFICATIONS AND OPTIONS

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Interior: Bentayga S

The striking visual style of the Bentayga S continues inside the cabin. A unique S colour layout, combined with a sleek fluted stitching pattern gives the seats a streamlined feel. Dinamica trim has been applied to the parts of the steering wheel and seats that see the most use. It's a thoughtful, motorsport-inspired touch that, along with the design of the on-screen graphics in the driver's information panel, reflects the car's dynamic character.

The distinctive 'S' emblem, meanwhile, appears on the badging, illuminated treadplates and seats – all vital details that hint at the thrilling journey ahead.

SPECIFICATIONS AND OPTIONS

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

TECHNOLOGY

Intuitive technology

Every Bentley is equipped with the latest driver assistance technology, alongside a suite of Connected Car services, accessible both in-car and remotely, via the My Bentley app. The vehicle can harness infrastructure data to deliver services including real-time traffic information, green traffic light prediction and swarm services from other road users to warn you of potential hazards.

Inside, you can now use the new My Bentley App Studio to download your personal choice of applications – which means you don't have to worry about your phone battery draining while you use it for music or navigation, for example. And if you do choose to use a third party navigation app, it will have access to your vehicle's fuel and/or charge levels, for more accurate journey planning.

You can even assign certain frequently-used functions – for example switching navigation announcements on or off – to a custom switch on the steering wheel, for easier access while driving.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Effortless manoeuvres

A suite of driver assistance systems makes the Bentayga easier to drive than ever – especially when parking and manoeuvring at low speeds.

Parking made even easier

The Intelligent Park Assist* function can identify a suitable parking space, then take control of the steering, pedals and gears while it parks your Bentayga. And for occasions when the space is so tight that it would be hard to get in or out of the vehicle once parked, you can use My Bentley Remote Park Assist*, a feature accessed via the My Bentley smartphone app. Simply step out of the car before it parks and tap the button in the app that activates remote parking. Then hold the button down until your Bentayga has safely parked itself. Your car will stop moving straight away if you stop holding the button for any reason. When you return to your car, you can also use Remote Park Assist* to drive it out of the parking space, so you can comfortably get back in.

Assistance when you need it most

When manoeuvring in extremely tight spots or crowded locations, 3D Surround View allows you to choose the best view available from the four different cameras on the car or, alternatively, see a 3D view of the overall environment around the vehicle.

Manoeuvre Assist provides an extra layer of safety for you and your car, by monitoring the environment in hard-to-navigate spaces and braking automatically if your Bentayga looks likely to collide with anything.

Trailer Assist*

Reversing can become a little more difficult when you have a trailer in tow, which is why you can now commission a Bentayga with Trailer Assist*. As soon as you put the car into reverse, the view from the rear camera is projected on the main infotainment screen. You then tell the car where you want your trailer to go, using the Drive Dynamics Control rotary knob on the front console. Then all that remains is to let go of the steering wheel and let your Bentayga do the rest.

*The driver must constantly supervise the manoeuvre and be able to intervene at any time to maintain safety. Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Embrace the open road

Every Bentayga is equipped with a number of driving assistance features that make driving long distances more comfortable, such as Adaptive Cruise Control, Lane Departure Warning and matrix headlamps with High Beam Assist. The optional Touring Specification (standard on the Azure model) provides even more intuitive assistance for long-distance touring.

More comfortable cruising

The specification includes Adaptive Cruise Control with Lane Guidance, which enables you to take your feet off the pedals when driving on the highway. As long as you keep your hands on the wheel, it will ensure you stay in the centre of your lane and maintain a safe gap between your Bentayga and the car in front – even if traffic slows to a stop and starts again.

Going beyond the highway

Predictive Adaptive Cruise Control takes these functions further, by offering the same convenience when you leave the highway. Using data from the

navigation system, the front camera and the Traffic Sign Recognition system, it can continue to safely control your speed, accelerating or braking as necessary to account for speed limit changes, bends in the road, junctions and roundabouts.

Safer driving at night

The night vision camera makes driving in darkness safer – especially in situations where obstacles could be present outside or beyond the headlamp beams. The view from the camera is shown on the driver's information display, highlighting the presence of people or animals in your car's path.

Key information at eye-level

The Touring Specification also includes a Head-Up Display, which projects key driving information into your line of sight, so you never need to take your eyes away from the road.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Connect to more

Every Bentley is equipped with a wide range of Connected Car services*, accessed in-car or remotely via the My Bentley app.

Seamless integration

You can input a destination into the navigation system via the My Bentley smartphone app when you're away from your car, so you're ready to go the moment you get behind the wheel. Real-time traffic information can then dynamically re-route your journey if there is congestion, while Green Traffic Light Prediction will aid smooth passage through junctions.

Your choice of apps

With the new My Bentley App Studio, you can opt to download and use many third party apps for navigation, music, video and more, all within the Bentley infotainment system, accessed via the central touchscreen. This means you can use your preferred navigation system, for example, complete with integrated information from your vehicle, such as fuel and/or charge levels.

A personal experience

In the majority of markets*, your Bentley is connected to the cloud, enabling all your personal settings to be stored remotely and accessed by the car as required. This means that even if you move between compatible Bentleys or to a new one, all navigation system destinations, light settings, seat settings and even your favourite radio stations can be downloaded immediately, making them available from the moment you get in.

A warm welcome

You can use the My Bentley app to remotely check the status of your locks, lights, mileage and fuel. If you have a hybrid model, you can also check your EV range. Hybrid models also allow you to remotely pre-heat or pre-cool the cabin with My Cabin Comfort. Just select your desired temperature and let the car's climate control system do the rest. You can also opt to heat individual seats, armrests and the steering wheel. You can even defrost the windows remotely, before your journey begins.

Leading the charge

Other hybrid features include E-charging, which allows you to plug your car into a charger and activate the charging process remotely via the app. Just enter the time you plan to set off, and the charging system calculates a charge rate that will give you the highest possible level of charge, just in time for your departure.

You're in safe hands

Emergency features include Private eCall and Roadside Assistance, which automatically connect you to a Bentley Emergency Call Centre or the Bentley Roadside Assistance team in the event of an accident. Furthermore, Theft Alert will notify you if the alarm is activated, giving you complete peace of mind.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.
*Vehicle connectivity and service availability varies by market. Please confirm specification with your local certified Bentley Retailer.
** With additional data plan purchased through a mobile network operator.
Android is a trademark of Google LLC.
Apple CarPlay is a registered trademark of Apple Inc.

Wireless by design

Internet connectivity is available for all occupants throughout, thanks to a built-in Wi-Fi hotspot.*

Content on your phone can be accessed in your car wirelessly, through Android™ Auto or Apple CarPlay. Phone content is shown on the section of the screen furthest from the driver, so no driving information is obscured. Online natural speech interaction, meanwhile, lets you activate over 200 car functions by voice, so your hands needn't leave the wheel.

Wireless phone charging is integrated in the stowage area forward of the gear lever, while the Touch Screen Remote, a wireless tablet included with every Bentayga, enables rear-seat passengers to control features including seat massage, heating and ventilation, climate control and sound.

*With additional data plan purchased through a mobile network operator. Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Incredible audio systems

Every Bentayga can be commissioned with your choice of three audio systems. The Bentley system offers exceptional sound, while audiophiles can upgrade to either the visually striking Bang & Olufsen for Bentley, complete with its stunning illuminated speaker grilles, or Naim for Bentley, for truly unrivalled sound quality.

The image shows the rear passenger area of a Bentley car. Two large, 10.1-inch touchscreens are mounted on the back of the front seats. The screens are black with the Bentley logo and name on the back cover. The interior is finished with light-colored leather and wood trim. The Bentley logo and name are visible on the top of the front seat headrests. The car's interior is shown from a rear passenger perspective, looking towards the front of the vehicle.

Rear Seat Entertainment

For the ultimate in passenger entertainment, choose the optional Bentley Rear Entertainment System. Two 10.1" screens sit behind the front seat headrests providing access to a world of online content. Netflix comes pre-installed, while other streaming apps can also be used, via your passengers' mobile devices.

The sound can be enjoyed as an immersive experience through the supplied Bluetooth headphones, your passenger's own headset or earbuds, or even the speakers of the car's audio system.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Charging and driving your hybrid

Vehicles equipped with the hybrid powertrain benefit from a number of additional features to enhance your driving experience.

There are three driving modes. The all-electric EV Drive mode is optimised for short journeys and city driving, while Hold is designed to preserve battery charge. In Hybrid mode, the intelligent navigation system maximises range and efficiency from the outset by choosing the most appropriate power source for each stage of your journey. If your route takes you through a city with an electric-only zone, it will even account for this in its planning, making sure the battery keeps enough power in reserve during the earlier stages of your journey.

Back at home, the Bentley charging dock enables you to recharge your Bentayga between drives, with two programmable timers, helping you plan ahead. A convenient charging time of 2.5 hours can

be achieved when using an industrial socket, while domestic sockets yield a full charge time of just 7.5 hours. Charging cables for both types of connection are supplied, and the charging process can be controlled via your smartphone or the onboard charging point.

Accessed via the My Bentley app, the My Battery Charge feature allows you to start charging, while the E-Charging service helps you find nearby charging stations, however far you've travelled from home.

Bentayga Azure (hybrid) WLTP drive cycle: fuel consumption, mpg (l/100 km) – Combined 94.2 (3.0). Combined electrical consumption – 274 Wh/km. Combined CO₂ – 71 g/km.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

PERFORMANCE

The ultimate SUV

Available with either a 4.0 litre V8 petrol engine or a 3.0 litre V6 hybrid powertrain, every Bentayga delivers the driving characteristics that made Bentley famous: phenomenal torque for smooth, surging acceleration that feels like it will never end.

The 8-speed transmission ensures optimum gear selection and irresistible acceleration throughout, while an advanced Torsen All-Wheel Drive (AWD) system delivers constant power to all four wheels, for confident driving, whatever the conditions.

Yet this is a sport utility vehicle, after all – and that means more than just exhilaration. Bentayga performance encompasses practicality as well as power – which is why it has been built to take you anywhere, whatever you need to take with you. It can perform perfectly at lateral and longitudinal angles of up to 35°, for example, and at wading depths of up to 500 mm. It's all part of what makes the Bentayga the ultimate SUV.

The V8 petrol engine

The V8 engine offers exhilarating performance, accompanied by a distinctive roar when you put your foot down. It puts 542 bhp (550 PS) at your disposal, reaching its maximum torque of 770 Nm (568 lb ft) at just under 2,000 rpm and maintaining it through to 4,500 rpm. All this power can propel your Bentayga from 0 to 60 mph in just 4.4 seconds (0 to 100 km/h in 4.5 seconds) and on to a top speed of 180 mph (290 km/h).

For increased efficiency, a Variable Displacement System can shut down four of the eight cylinders when not required, reactivating them again as soon as they are needed – and ‘start-stop’ technology is deployed when the vehicle is stationary and at ‘near-stop’ speeds. The result is a truly incredible combination of fuel economy, emissions and range.

The V6 hybrid powertrain

The plug-in hybrid powertrain combines the power you expect from a Bentley with even lower emissions and the potential to drive in electric-only mode, for a serene experience in city streets.

An electric motor works in partnership with a 335 bhp, 3.0 litre V6 petrol engine to deliver 456 bhp in total and 700 Nm (516 lb/ft) of combined torque. This allows you to reach 60 mph in just 5.1 seconds (0 to 100 km/h in 5.3 seconds), before surging on to a top speed of 158 mph (254 km/h).

Bentley Dynamic Ride and all-wheel steering

V8 models can be commissioned with the 48-volt active roll control system known as Bentley Dynamic Ride*, which combines the handling of a sports car with the refinement of a luxury saloon. Standard on V8 S and Azure models, it is available as an option on all other V8 Bentaygas. For unrivalled manoeuvrability, the system is installed alongside all-wheel steering, which shrinks the car's turning circle at low speeds and improves stability when changing lanes on the highway.

*Not available with hybrid engine. Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Sports exhaust

If you choose the Bentayga S with a V8 engine, you will benefit from a thrilling sports exhaust. Installed as standard on V8 S vehicles and available as an option on all other V8 Bentaygas, it both boosts the volume and enhances the unique V8 character of the vehicle's exhaust note, both inside and outside the cabin.

To achieve this, the Bentley engineering team have made changes throughout the exhaust system, to both the muffler and the pipes themselves. The result is a truly exhilarating roar, as you put your foot down and feel the g-force push you back into your seat.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Driving beyond the road

The All-Terrain Specification* adds four additional Responsive Off-Road Settings, to deliver more drive modes than any other car. The 'Snow & Grass' setting provides grip on low friction surfaces, 'Dirt & Gravel' gives optimum traction on loose debris, 'Mud & Trail' configures the car's systems for muddy, uneven surfaces and 'Sand' gives greater confidence over dunes. And all the while, exhaustively tested underfloor protection ensures all key components are protected.

*Not available with hybrid engine. Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Choose your mode.

Every Bentayga gives you access to four different driving modes – Comfort, Bentley, Custom and Sport – which can be selected using a rotary dial.

While Comfort mode prioritises a smooth ride, the specially calibrated Bentley mode delivers the perfect balance of luxury and exhilaration. Custom mode lets you make your own adjustments to the engine, transmission and suspension and in effect, create your own mode. Sport mode, meanwhile, tailors these variables for a more dynamic drive.

If you choose the Bentayga S and the V8 engine, you will benefit from an enhanced Sport mode, for the ultimate driving thrill. It adjusts the Bentley Dynamic Ride, Electronic Stability Control and Traction Control systems to boost responsiveness even further, while introducing torque vectoring by brake.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Towing and storage

There is more to the way an SUV performs than just the way it drives. Whether you are golfing or skiing, heading across continents or just across town, you need a vehicle that is practical as well as powerful.

That's why the Bentayga has been designed to accommodate a wide range of outdoor pursuits. From roof boxes and bicycle carrying racks to a range of tailored storage solutions for skiing, fishing, diving and other active pursuits, there is a huge range of accessories available. The spacious boot provides ample storage space, while the hands-free tailgate, easy-load boot function and load assist tray enable effortless opening, closing and loading.

If you choose the V8 powertrain, you can tow up to 3.5 tonnes – more than ample for speedboats, gliders and horseboxes. The electrically retracting tow bar – an option available with the V8 powertrain only – lies hidden behind the rear bumper when not in use. Even reversing with a trailer attached is made significantly easier, thanks to the Trailer Assist feature. See 'Effortless Manoeuvres' on page 28 to learn more.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

PERSONALISATION

Express yourself

With a host of accessories and styling options allowing you to configure your Bentayga to your personal taste, it is highly unlikely you will ever see another one like yours.

You can choose from an extensive palette of exterior paint colours, all of which are designed to maintain their brilliance for many years to come. With numerous different wheel designs, hide options, beautiful natural veneers and distinctive trim options, almost every visible feature of your Bentayga can be customised to your own specification.

Exterior colours

There are seven standard exterior colours. In addition, you can also choose from an extended range and a palette of Mulliner paints that includes a vast range of solid, metallic, satin and pearlescent options. In all, there are 16 satin options and over 80 colours in total – including Gravity Grey, a sublime mid-to-dark metallic finish.

For the ultimate in personalisation, Personal Commission Paint by Mulliner allows you to match a colour that is as unique as you are.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Wheels

Your choice of wheel can subtly or dramatically alter the character of your Bentayga. That's why there is such a wide range of wheels on offer, including designs that are exclusive to the Bentayga Azure and Bentayga S.

Across the range, you will see a variety of stunning finishes. The painted finish is elegant and understated, while polished wheels gleam, accentuating the luxury characteristics of the car. Black painted wheels can evoke a sporty, stealthy aesthetic, while the combination of black and bright machined finishes gives wheels a stunning contrast. The new Pale Brodgar Satin – a painted finish available only on the 22" 5-spoke directional wheel – adds a sense of heightened sophistication and presence.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Veneers

Wood veneers are sanded and lacquered five times, taking a full ten days to reach the Bentley standard of finish. Sustainably sourced from forests around the world, each leaf of veneer can be traced to the very tree it came from. The choice of wood species is detailed overleaf, including several open pore veneers and six gloss painted finishes: Imperial Blue, Cricket Ball, Burnt Oak, Gravity Grey, Piano Black and Piano Linen by Mulliner.

Eye-catching technical finishes include high-gloss Carbon Fibre and Dark Tint Diamond Brushed Aluminium, where each diamond shape is brushed in one of three directions for a textured, three-dimensional effect.

You can also opt for metal overlays in the veneer itself. This stunning, handcrafted finish adds an intricately designed layer of metal to the veneer during construction, which gleams as it catches the light. Less than 0.1 millimetre thick, these overlays sit virtually flush to the veneer's surface.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Hide colours

From the fascia to the blind stitching, every inch of the cabin requires a specialised approach. Sections of the hide with high natural elasticity are reserved for curved surfaces like the seats, rather than for piping or flatter areas such as door inserts. The steering wheel, meanwhile, is covered in a highly resistant leather to ensure the natural chemicals from the driver's skin are not absorbed, optimising grip, comfort and longevity.

The Bentley design team have carefully selected a range of leather colours, including the beautiful new Gravity Grey. The Mulliner Colour Specification gives you a choice of eight accents for an additional burst of colour.

The Bentley Azure comes with the exclusive Colour Specification included as standard, allowing you to choose any hide colour and colour combination in the range.

Bespoke commissioning with Mulliner

In the early days of motoring, a new car would consist of an engine, drivetrain, four wheels and a set of controls – nothing more. Everything else was created by a coachbuilder, such as Mulliner.

Today, Mulliner works within Bentley to offer a variety of premium features and optional finishes, alongside bespoke customisation services.

For example, the team can colour-match any object you provide to create a unique paint colour. The same is true for your hides – any colour you can supply can be perfectly matched and made for you.

Further examples include personalised embroidery for your seats and exquisite marquetry inlays to your veneers. You can even work with them to design truly bespoke features for your car.

To learn more, visit the website or ask your Retailer about the Mulliner Personal Commissioning Guide.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Styling and Blackline Specifications.

The Styling Specification enhances the Bentayga exterior with a carbon fibre tailgate spoiler, front bumper splitter and side sills.

The Blackline Specification – standard on the Bentayga S and optional on all other models – replaces the exterior chrome detailing with bold, black-painted components. It includes a black matrix grille and surround, black exhaust tailpipe trims, roof rails, window surrounds, wing vents, door trim, door handles and lamp bezels. The result is a significantly darker, more starkly defined appearance. Only the Bentley badging retains its polished chrome finish.

2023 model shown opposite. Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Specification Packages.

To make it even easier to specify your Bentayga, our engineers and designers have created groups of features, from technology packages that make driving easier to collections of exquisitely crafted styling enhancements that suit your lifestyle.

FRONT SEAT COMFORT SPECIFICATION

- 20-way movement for front seats
- Ventilation and massage
- Comfort headrests
- Postural Adjust
- Seat Auto Climate
- Electric front headrests

FIVE SEAT COMFORT SPECIFICATION

- Front Seat Comfort Specification
- Comfort headrests to rear outer seats
- Ventilation to outer seats

4+1 SEAT COMFORT SPECIFICATION

- Front Seat Comfort Specification
- Individual rear seats with 16-way movement
- Ventilation and massage
- Foldable centre armrest to create third seat
- Armrest includes storage, cupholders and x2 USB-C sockets
- Comfort headrests to rear outer seats
- Ski hatch

QUILTING SPECIFICATION

- Harmony Diamond Quilt to seats and doors (Azure and A)
- Precision Diamond Quilt to seats and doors (S)

FOUR SEAT COMFORT SPECIFICATION

- Front Seat Comfort Specification
- Individual rear seats with 16-way movement
- Ventilation and massage
- Centre console with storage and USB-C charging
- Comfort headrests to rear outer seats
- Ski hatch
- Seat Auto Climate and Postural Adjust
- Adjustable cushion and backrest bolsters
- Rolling nose
- Electric headrests

BENTLEY DIAMOND ILLUMINATION

- Illumination through perforation pattern in doors in up to 30 colours
- Mood lighting

BENTAYGA BLACKLINE SPECIFICATION

All exterior brightware changes from bright to black, except BENTLEY lettering and wing badges

BENTAYGA STYLING SPECIFICATION

- Carbon fibre tailgate spoiler, front bumper splitter and side sills
- Unique front and rear bumper design

The Bentley Configurator

The Bentley Configurator website allows you to explore every model in the Bentayga range and see all the colours, features and finishes, just as they will look on a new Bentayga. There is simply no better way to explore all your options – and discover the right car for you.

Arranging a test drive

As with every Bentley, there is only one way to truly appreciate a Bentayga: to sit in the driving seat, take the wheel in your hands and feel the breathtaking surge of acceleration as you put your foot down.

To take the next step on the journey of acquiring your Bentayga, we recommend a conversation with a Bentley Retailer.

Please refer to Specifications and Options pages for standard and optional features. Not all options are available on all models and within all markets.

Accessories, servicing and maintenance

Genuine Bentley accessories represent an opportunity to personalise your Bentayga even further. From Fixed Sill Steps that make entry and exit easier to Paint Protection Film that will preserve its looks for years to come, there are numerous options available, to suit a vast array of lifestyles and pastimes. Moreover, they are all designed specifically by Bentley to work seamlessly with your Bentayga.

Consider this just one reason to bring your vehicle back to an official Bentley retailer. No one else has the same expertise, the Bentley-trained technicians or access to genuine Bentley parts – not to mention Service and Maintenance products that can give you complete peace of mind, throughout your vehicle's lifetime. There is no better way to keep your Bentayga close to the impeccable condition it was in, the day it left the factory.

Financing your Bentayga

Our finance agreements are tailored to ensure you make the most of your investment. While other financiers look only at the circumstances of the customer, Bentley Financial Services creates bespoke packages, based not just on your needs and income, but also on the vehicle you have in mind.

To discover more, please talk to your local Bentley Retailer or visit the finance page on the Bentley website.

WORLD OF BENTLEY

The Bentley Collection

The Bentley Collection is a selection of lifestyle products inspired by the distinctive design of our cars. With many items lovingly crafted by highly skilled artisans, the Bentley Collection takes our exciting heritage and vision for the future, and seamlessly weaves it into extraordinary statement pieces.

From unique pieces for the home that elevate your everyday life, to lovingly crafted clothing and accessories designed with a distinctive eye for detail, you can bring Bentley's unrivalled refinement to every aspect of your life.

To view the complete range, please contact your local Bentley Retailer or visit the online store at BentleyCollection.com

VISIT BENTLEY COLLECTION

The Bentley Experience

These unique tours offer unrivalled opportunities to explore behind the scenes at the Home of Bentley in Crewe and visit the flagship showroom, CW1 House.

Our knowledgeable hosts will share rare insights into the design and engineering process. You will meet the craftspeople who build your car and discover the innovations and techniques they're using to craft a sustainable vision of the future.

Available as an on-site, real-world experience or as a virtual tour, the Bentley Experience offers a truly tailored journey, with your questions answered by our experts along the way. There is simply no better way to understand the passion that goes into every Bentley.

You can learn more about the Bentley Experience and factory tours on the Bentley website.

[VISIT BENTLEY EXPERIENCES](#)

Extraordinary Journeys

We run a number of events each year for Bentley drivers and admirers, such as Extraordinary Journeys. Participants experience the world of Bentley beyond the car – taking in beautiful locations, a focus on wellbeing, an exploration of sustainability, and the chance to meet inspiring people who are reshaping the world.

In the UK, for example, Bentley enthusiasts have the opportunity to tour the Home of Bentley in Crewe before setting off on a journey that includes sustainable fine dining, some of the country's most notable landscapes and landmarks, and hospitality at a range of forward-thinking establishments.

To discover more, please talk to your local Bentley Retailer or visit the Extraordinary Journeys page on the Bentley website.

SPECIFICATIONS & OPTIONS

Bentayga

STANDARD SPECIFICATION

POWERTRAIN AND VEHICLE DYNAMICS

- 8 speed automatic transmission
- Air Suspension with Continuous Damping Control
- Electronic Stability Programme (ESP) with Traction Control (TCS), Anti-lock Braking System (ABS), Electronic Brake Force Distribution (EBD), Hydraulic Brake Assist (HBA), Drag Torque Control (MSR), Electronic Diff Lock (EDL)
- ESP off-road features: Roll-Over Mitigation (ROM), Hill Descent Control (HDC), Trailer Sway Mitigation (TSM)/ESC off-road mode (V8 engine only)
- Front and rear vented disc brakes with Bentley branded black brake callipers (front)
- Speed sensitive, variable ratio, electric power steering
- Permanent all-wheel drive, with centre Torsen differential
- Drive Dynamics Control

EXTERIOR

- Choice of seven standard paint colours: Beluga (solid), Dark Sapphire, Glacier White (solid), Moonbeam, Onyx, St. James' Red (solid), Thunder
- Gloss black radiator matrix grille with bright surround and bright centre bar
- Matt Black matrix lower bumper grille
- 21" 5 twin-spoke alloy wheel – painted
- 21" summer tyres
- Acoustic side glass
- Aluminium side window brightware
- Fixed rear spoiler
- Acoustic, heat insulating front screen
- Heated rear screen
- Panoramic glass roof
- Front and rear fog lamps
- Full LED supplementary lamps and tail lamps
- Full matrix LED headlamps with High Beam Assist*
- Oil and fuel filler caps
- Body coloured door mirrors
- Powerfold, heated, dimming, memory mirrors
- Roof rails
- Welcome orchestration lighting*

- Bentley 'B' wing vent
- Body coloured front bumper apron
- Oval split tailpipe
- Black painted shark fin aerial
- Rain sensing wipers
- Wet arm front screen wipers
- Power latching to driver and passenger doors
- Powered tailgate
- Hands free tailgate

INTERIOR

- Choice of five hide colours: Beluga, Cricket Ball, Imperial Blue, Newmarket Tan, Gravity Grey
- Fluted seat design
- Five seat configuration
- 16 way electric front seats, heated with memory
- Steering wheel mounted gear shift paddles
- Dinamica headlining and upper trim
- Crown Cut Walnut veneer
- Two metal bulls-eye vents with organ stops and centre vents
- Carpet mats front & rear
- Black (Beluga) boot carpet
- Luggage rails on boot floor
- Bentley branded clock
- Folding luggage compartment cover
- Front and rear cupholders
- Lockable, cooled glovebox
- Twin front armrest
- Electronically operated blinds for rear side windows
- Blind stitching
- Double sun visor
- Load through facility
- Stowage: Instrument panel, doors (front and rear), armrests and console
- Leather trimmed gear lever
- Heated, single tone, 3 spoke, hide trimmed steering wheel
- Standard foot pedals
- Keybox

 Gross weight: 3,250 kg
Fuel consumption (WLTP Cycle)
 Low: 22.4 l/100 km / 12.6 mpg (UK)
 Medium: 13.2 l/100 km / 21.4 mpg (UK)
 High: 10.7 l/100 km / 26.4 mpg (UK)
 Extra: High 11.5 l/100 km / 24.6 mpg (UK)
 Combined: 13 l/100 km / 21.7 mpg (UK)
 CO₂ combined: 296 g/km
 EU WLTP Total Driving Range: 654 km / 406 miles

Fuel consumption
 (NEDC Cycle WLTP Equivalent – Europe)
 Urban: TBC
 Extra Urban: TBC
 Combined: TBC
 CO₂ Emissions: TBC
 Combined driving range: TBC

Fuel consumption (NEDC Cycle – ROW)
 Urban: TBC
 Extra Urban: TBC
 Combined: TBC
 CO₂ Emissions: TBC

Fuel consumption (EPA Cycle)
 City driving (US): 14 mpg
 Highway driving (US): 21 mpg
 Combined (US): 16 mpg

Your mileage will vary and depends on several factors including your driving habits and vehicle condition.

Tyre applicability.
