## CARBON FIBRE STYLING SPECIFICATION

Accentuating the muscular yet sleek lines of your Bentayga, the Carbon Fibre Styling Specification breathes new life into your adventure. Featuring a distinctive weave pattern and high-gloss carbon fibre, the side sills, front splitter and rear spoiler are mirror-matched for symmetry, echoing the exquisite veneers found inside the cabin.

A rear diffuser, bumper surround and rear screen strakes complete the look, creating a commanding aesthetic that never goes unnoticed. You can also add optional Carbon Fibre Mirror Caps for the ultimate finishing touch.

Each element is rigorously tested and expertly crafted from the same technical materials found in your Bentayga – so you can take pride and peace of mind on every journey.

## BLACKLINE SPECIFICATION

The Blackline Specification brings a darker, bolder attitude to your Bentayga, enhancing its head-turning presence. Replacing the exterior polished chrome with all-black brightware, its dramatic cues include side window surrounds, wing vents, lower door and rear bumper brightware, headlamp and rear lamp bezels, radshell matrix, door handles and exhaust tailpipes.

## SPORTS EXHAUST

The unmistakable Sports Exhaust\* is designed to emphasise the power and responsiveness of your Bentayga's engine with an exhilarating sound, heard both inside and outside your vehicle. Made from stainless steel and available in bright or dark chrome to match your chosen styling kit, it features a new exhaust muffler and pipes.

## WINTER TYRES

When winter comes, we think the thrill of driving your Bentley should go on and on. That's why we developed our Winter Wheels and Tyres package, to help you keep your grip on the road in challenging conditions like ice, sleet and snow. As soon as temperatures dip below 7°C, summer tyres no longer perform at their best. By switching to Winter Tyres, you'll benefit from special treads and rubber compounds that give improved traction and control.

Please note, 22" Winter Wheels and Tyres are only available from 25MY onwards.

## WHEEL ENHANCEMENTS

### SELF-LEVELLING WHEEL BADGES

The Self-Levelling Wheel Badge adds an extra touch of elegance to your drive. Easy to install and available across an extensive selection of Bentley wheels that have a standard hub cap, these badges ensure the Bentley 'B' is always upright as your wheels rotate. Available as a set of four.

### RED BRAKE CALLIPERS

Unique and eye-catching, Red Brake Callipers, bearing the Bentley name in white, make an assertive statement that works particularly well with the Blackline Specification.

## INTERIOR & TECHNOLOGY

## WELCOME LIGHTS

The perfect start or end to your journey. Our Welcome Lights use a small but powerful LED light to project the Bentley wings emblem onto the ground as you step in or out of your vehicle. Available with standard or animated sequences.

## STEERING WHEELS

Within the cabin of your Bentayga or Bentayga EWB, you can always expect driver-centric design. Meticulously stitched from the finest leather, the Single-Tone Hide Steering Wheel puts refined elegance at your fingertips, along with a choice of integrated controls. If you want to highlight the individual character of the cabin further, the Duo-Tone Hide Steering Wheel is finished in both the primary and secondary colours of your car's interior.

## REAR SEAT ENTERTAINMENT

Secured to the back of the front seats, the Bentley Rear Seat Entertainment system features two high-definition 10.1" screens that provide endless miles of entertainment for your rear cabin passengers.

Content can be effortlessly streamed from a personal mobile device, giving your passengers the choice of whatever they want to watch. Simple to connect and remove, the system combines the functionality of a fully integrated system with the convenience of a mobile tablet, for entertainment that doesn't have to stop when you reach your destination.

### HEADPHONES

To complete the experience, you can opt for Bentley Bluetooth Headphones. These elegant over the ear headphones connect seamlessly to your devices, allowing you to stream your entertainment in crystal clear quality.

## BENTLEY DRIVE VISION AND DUAL DRIVE VISION

While you're enjoying the drive, the Bentley Drive Vision and Dual Drive Vision captures the road and so much more. It's your co-pilot for safety and security, looking out for you when you're behind the wheel, and when you're away from your car. The range includes two products: the Bentley Drive Vision, featuring a single front camera, and the Bentley Dual Drive Vision, which offers both front and rear cameras. Bentley Drive Vision and Bentley Dual Drive Vision are compatible with all Bentayga models from 2018 onwards.

## SPORTS BRAKE PEDAL

You can also evoke a century of racing heritage with the beautifully crafted Sports Brake Pedal. With raised bosses, the enhanced grip ensures you stay connected to your Bentayga and the open road.
