Flying Spur Speed (W12) WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 18.8 (15.0). Combined CO_2 Emissions – 340 g/km.

A magical fusion.

The Flying Spur has many contrasting sides to its character. Each one is engaging in its own right. Together, they create a truly captivating experience.

This is a car where extreme power meets remarkable agility. Where grand design meets intricate details. Where innovative technology meets timeless style. And where a century of Bentley craftsmanship meets cutting-edge techniques.

The Flying Spur range is available in five distinctive models, each with their own characteristic qualities.

At its heart, the Flying Spur is a car built for those who love to drive, while also made for those who delight in being driven. It is an inspiring luxury four-door car, and yet it delivers all the exhilarating performance of a grand tourer. Taking this passion further, the Flying Spur Azure offers the ultimate in comfort and wellbeing, while the Flying Spur S pairs striking design with sporty agility. The Flying Spur Speed combines phenomenal performance with unmatched sporting luxury and the Flying Spur Mulliner embodies unlimited luxury – the pinnacle of craftsmanship.

The Flying Spur, Flying Spur Azure and Flying Spur S are available with either a V8 or hybrid powertrain, both of which offer an extraordinary driving experience. The Flying Spur Speed is powered by Bentley's phenomenal W12 engine, while the Flying Spur Mulliner can be commissioned with any of the three options.

The responsive V8 engine delivers agility and refinement accompanied by an emotive exhaust note, while the hybrid represents an exciting step on Bentley's journey towards sustainable luxury, combining intelligent technology with rewarding performance and low emissions. The smooth, and supremely powerful, 6.0 litre, twin-turbocharged W12 delivers an exhilarating and inspiring drive.

Wherever you travel in the Flying Spur, you will enjoy a journey of constant discovery. Explore the range in detail **here**.

Flying Spur Azure (V8) WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 22.2 (12.7). Combined CO_2 Emissions – 288 g/km.

The Flying Spur Azure. Ultimate wellbeing in action.

The sensational Flying Spur Azure redefines the luxury four-door sedan as a vehicle designed to enhance your sense of wellbeing wherever you travel, offering a harmonious balance of performance and luxurious comfort.

Available with your choice of V8 or hybrid engine, the Flying Spur Azure delivers impressive power and efficiency, allowing you to embark on extraordinary journeys inside city limits or over long distances.

Bentley Dynamic Ride and driver assistance systems ensure an effortless drive which matches the comfort-focused interior, easing you into a journey of blissful serenity.

Tactile materials such as the open pore veneer, heated steering wheel, leather-trimmed gear lever, three-dimensional diamond-patterned doors and Organic Comfort Quilt seats create a cabin environment that surrounds you in a calming ambience. So much so, you'll want to take the feeling with you upon reaching your destination.

A bright chrome vertical vane matrix grille, distinctive 'Azure' badging, black painted and bright machined 22" 10 spoke wheels, and unique illuminated treadplates denote just some of the eye-catching characteristics of this contemporary sedan.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Flying Spur S.
Drive your desire.

The head-turning Flying Spur S brings a sporty sense of joy to the sedan, fusing dynamic design with addictive agility. From the moment you lay eyes on this commanding car, the excitement sets in for the journey ahead.

The sleek lines of its superformed aluminium body are accentuated by the Blackline Specification, which replaces most of the chrome exterior detailing with gloss black, to match the imposing gloss black matrix grille. The shining 'S' fender badge and flash of red from the brake callipers serve as a reminder that this is a car that prefers the limelight to the shadows.

The interior elevates the car's striking design with a unique colour combination that complements the dynamic exterior. Fluted seats give the cabin a sporting edge, while even the driver's information panel reflects the car's dynamic character, its graphics reflecting the design of fine chronograph watches.

The hybrid powertrain allows you to cruise through city streets in near silence, while the V8 engine unleashes an exhilarating roar as you accelerate, made all the more powerful by the car's sports exhaust.

With Bentley Dynamic Ride delivering the perfect balance of vivacity and control with every turn – there's no question a sensational experience awaits behind the wheel of the Flying Spur S.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Flying Spur Speed.
Peak performance.

The Flying Spur Speed pushes four-door performance to the limit, combining unrivalled power and supreme sporting style. With a 6.0 litre W12 petrol engine beneath its gleaming bonnet and a suite of advanced chassis technology, it offers the most exhilarating drive of any car in the Flying Spur range.

While the space inside the cabin is incredibly generous, this is also a phenomenally agile car. Cutting-edge chassis systems include active all-wheel drive and all-wheel steering, as well as the innovative Bentley Dynamic Ride system, optimising the car's stability when cornering. Yet ultimately, it is the power it puts at your disposal that truly sets it apart. This is a car that can accelerate from a standing start to 60 mph in just 3.7 seconds (0 to 100 km/h in 3.8 seconds) and propel you on to an astounding top speed of 207 mph (333 km/h) – performance literally unheard of in the world of the luxury sedan.

Dark and purposeful in its styling, the Flying Spur Speed makes extensive use of motorsport-inspired materials and technical finishes, from the dark tint detailing and matrix grille at the front, to the Precision Diamond Quilt inside. This is a car that has been designed to delight every passenger and to excite every driver. Consider it the most thrilling Flying Spur that Bentley has ever created.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Flying Spur Mulliner. The pinnacle of Bentley luxury.

Luxury has no limits in the Flying Spur Mulliner. This stunning vehicle is the pinnacle of craftsmanship and refinement, ensuring unrivalled comfort and enjoyment on every journey – whether you prefer to drive or be driven.

Available with a hybrid, V8 or W12 engine, the Flying Spur Mulliner can be crafted around you, meaning you set the pace of its extraordinary performance capabilities. Beyond performance, exquisite exterior details, from the double-diamond matrix radiator grille to the painted and polished 22" Mulliner wheels with self-levelling badges, make a statement that this car is truly special. Illuminated outer treadplates and LED Welcome Lights invite you to immerse yourself within the cabin, where every meticulous detail truly comes alive.

Eight colour combinations with a unique third accent colour are available to choose from, each inspired by extraordinary journeys through the Amalfi coast, or exhilarating summer days spent at Royal Ascot. These beautiful shades are complemented by accent seat piping and Mulliner headrest embroidery to create further definition.

The Flying Spur Mulliner possesses an impressive array of additional features, including the innovative Bentley Rotating Display, panoramic sunroof, Comfort Seat Specification and sports pedals to name a few. Each enhances its status as the pinnacle of luxurious automotive style.

Discover the endless possibilities available with Bentley Mulliner. Use our configurator to bring your discerning style to the forefront **here**.

Flying Spur Mulliner (W12) WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 18.8 (15.0). Combined CO_2 Emissions – 340 g/km.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

DESIGN

Assertive, yet graceful.

The first thing you notice about the Flying Spur is its striking lines.

The elegant roofline gives an immediate impression of speed, as does the sweeping power line that flows from the headlamps and runs along the car's profile. The muscular haunch line over the rear wheel adds an assertiveness to its stance that hints at the car's immense power.

The crisp, sharp signature lines on the Flying Spur could never have been achieved by conventional means. The smooth, seamless panels are created by superforming – a process where aluminium is heated to 500°C and shaped by air pressure. With the largest superformed panel ever seen in the automotive world, the Flying Spur has a stunning, unified feel.

The long and sleek profile has been enhanced by moving the front wheel forward and raising the bonnet, creating balanced proportions that combine the distinctive Bentley DNA with a modern, sculpted look.

Added touches, such as refined fender badges and illuminated treadplates on the Flying Spur Azure, Flying Spur S and Flying Spur Speed, as well as the double-diamond wing vent and satin silver door mirror caps of the Flying Spur Mulliner, denote just some of the distinguishing features which separate each exquisite model.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

A striking presence. A sense of flight.

A host of stunning details at the front and rear of the Flying Spur underline the more imposing side of its character.

A statement radiator grille leads the charge, its precise design depending on which model you choose. The Flying Spur features a black matrix grille with a chrome surround, while the Flying Spur Azure is fitted with a chrome, vertical-vaned grille that emphasises its refined character. The Flying Spur S and the Flying Spur Speed feature Bentley's classic matrix grille, in black and dark tint metallic, respectively. At the pinnacle of the range, the Flying Spur Mulliner features an exquisite double-diamond matrix grille, adding detail to this iconic design.

The signature 22" 10 spoke wheels of the Flying Spur Azure and 21" 5 tri-spoke wheels of the Flying Spur S, both black painted and bright machined. Taking the contemporary look further, all exterior chrome elements are replaced with a striking gloss black finish on the Flying Spur S.

Jewel-like LED matrix headlamps transform light with an eye-catching, cut-crystal effect that ensures they continue to sparkle, even when they're not lit. The tail lamps are equally impressive. Designed around the signature Bentley 'B' shape, they contain an intricate diamond knurling pattern that echoes the knurling on the controls inside the car.

A chrome bonnet strip leads your eye to a feature that has not been seen on a Flying Spur since the 1950s. A standard feature on the Mulliner model and available as an option on all others, the Flying 'B' bonnet mascot reaches forward from the front of the car – a stunning symbol of Bentley power and grace.

The mascot can be commissioned in your choice of hand-polished chrome or black gloss. The moment you unlock the car, it emerges smoothly from beneath the bodyshell, the feathers of its wings' illuminating in time with a welcoming glow from the headlamps.

*Not available on Flying Spur (hybrid) in China.
Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Flying Spur Azure.
A study in elegance.

When seeking extraordinary style, look no further than the Flying Spur Azure.

The superformed body, with its defining lines, is enhanced to suggest the extraordinary sense of wellbeing that awaits your every journey. A range of 16 exterior colours are available, allowing you to create a presence on the road that suits your personal taste. You can also choose from an extended range including the Mulliner palette of solid, metallic, satin and pearlescent options, giving you a choice of over 80 paint colours in total. 'Azure' exterior fender badges add a finishing touch that define this model as truly unique.

Chrome trim and black painted and bright machined 22" 10 spoke wheels* complete the elegant profile, while the optional Blackline Specification replaces virtually all the chrome exterior detailing with black.

At the front, headlamps bearing Bentley's signature cut-crystal design flank the distinctive Azure chrome radiator grille with vertical vanes. And as you step up to the car, ready for an extraordinary journey, elegant illuminated treadplates welcome you aboard.

The result? A rush of excitement and anticipation for the journey ahead.

*Not available on Flying Spur (hybrid) in China.
Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Flying Spur S.
A masterpiece in black.

A glint of light and splash of colour confirm the dynamic character of the Flying Spur S. They come courtesy of the gleaming ‘S’ fender badge, as well as the eye-catching red brake callipers that can be glimpsed behind the black painted and bright machined 21" 5 tri-spoke wheels.

The brooding aesthetic is enhanced by the inclusion of the Blackline Specification as standard, which replaces most of the chrome exterior features with gloss black. A black gloss matrix grille is flanked by dark tint headlamps, matching the dark tint Bentley ‘B’ lamps at the rear. Black door mirrors and tail pipe finishers add a high-contrast finishing touch to a car that is designed to turn heads.

Illuminated ‘Bentley’ outer treadplates and exclusive ‘S’ inner treadplates welcome you inside, where the Piano Black veneer evokes the same dark, dynamic presence of the exterior. Embroidered with ‘S’ emblems, the motorsport-inspired seats can also be commissioned with the optional Precision Diamond Quilt. A unique, dynamic colour combination enhances the ambience and, if you prefer a lighter interior, other fascia and veneer options are available, with a choice of technical finishes or wood alternatives to suit your taste.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Flying Spur Speed.
A statement of intent.

From the moment you set eyes on the Flying Spur Speed, its character is clear. Elegant and spacious it may be, but it conceals a dark secret: the power to exhilarate anyone who sits behind the wheel.

The first indications of its sporting intentions are immediately apparent. A dark tint has been applied to the matrix front grilles, the front and rear lights and all other exterior detailing, except the badges. The stunning 22" Speed wheels, exclusively available on the Flying Spur Speed, complete the picture.

Inside, sporting style is in evidence wherever you look, from the Speed embroidery on the seats and the performance-themed graphics in the instrument panel, right down to the sports pedals at your feet.

The seats feature Bentley's Precision Diamond Quilt. The leather and Dinamica upholstery scheme is unique to the Speed, with 15 hide colours to choose from. Veneer options are also extensive, taking in the full range of Bentley's wood finishes, as well as more technical materials such as engine-turned aluminium and high-gloss carbon fibre.

The Flying Spur Speed could be considered a wolf-in-sheep's-clothing. Take a closer look, however, and you'll see it's all wolf.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Flying Spur Mulliner.
New limits of luxury.

Combining the proud history of Mulliner craftsmanship with the contemporary style of the Flying Spur results in a car that rewrites the rules of modern luxury.

Its presence alone has the power to hold your gaze, with striking exterior details found only on this model. From the ground up, its exclusive grey painted and polished 22" wheel with a self-levelling Bentley 'B' centre wheel badge creates a dramatic statement, while Mulliner double diamond wing vents and Satin Silver painted mirror caps draw the eye to the exquisite, handcrafted detail, highlighting its sleek lines with contrasting colour accents.

The luxurious 3D effect of the double diamond pattern is echoed in the front radiator grille, and is carried through to the tactile and bespoke interior. But, before you step inside, welcomed by the illuminated Mulliner treadplates, you're reminded once more that this car is exceptional.

As you prepare to embark on your extraordinary journey, the Flying 'B' mascot electronically deploys, its wings lighting up to lead the way – wherever you go.

Flying Spur Mulliner (V8) WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 22.2 (12.7). Combined CO_2 Emissions – 288 g/km.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

PERFORMANCE

Imposing, yet agile.

The Flying Spur may take the form of a spacious four-door car, but at its heart lies the exhilarating spirit of a powerful grand tourer.

Its immense power and agile handling is the result of our hundred-year journey to create such a car, as envisioned by W.O. Bentley himself: “a fast car, a good car, the best in its class”.

Flying Spur (V8) WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 22.2 (12.7). Combined CO_2 Emissions – 288 g/km.

Exceptional control.

The phenomenal power of the Flying Spur is delivered in a sophisticated way, for an engaging, highly controlled drive. Active All-Wheel Drive monitors the level of grip and adapts to provide assured confidence at all times. Featuring a map-controlled, electronic multi-plate clutch, its sensors constantly monitor the rotation of each wheel. By combining this data with the overall velocity and lateral acceleration of the chassis, the car can respond to changes in road conditions instantaneously.

In normal road conditions, it delivers predominantly two-wheel drive to the rear for an engaging driving experience. But when required, it instantly distributes more torque to the front to maximise traction and performance. Bentley Dynamic Ride, an innovative 48-volt electronic active roll control system, ensures exceptional responsiveness in all road conditions. Electronic actuators on the anti-roll bar of each axle automatically adjust to enhance both handling on corners and ride comfort. A torque-vectoring-by-brake system improves response and agility. It automatically employs braking on the inside rear and front wheels, if necessary, when cornering to ensure optimal turn in and grip both during and when exiting the corner.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Perfect for crossing cities, or continents.

Whether you're negotiating city streets or enjoying the open road, the Flying Spur has the versatility to deliver a rewarding driving experience, tailored to your surroundings.

The intelligent Electronic All-Wheel Steering system adapts to suit whatever driving speed you choose. At low speeds, the rear wheels will turn up to 4.1 degrees in the opposite direction to the front wheels. This effectively shrinks the car's turning circle, benefiting city drivers who need to negotiate tight spaces. At high speeds rear wheels turn up to 1.5 degrees in the same direction as the front wheels, giving the car extra agility and inspiring confidence with its stability.

Electronically tuned air suspension further refines the driving experience. It uses three-chamber air springs to create a large air volume, elevating both ride comfort and dynamic handling, with continuous damping control adjusting the volume of air to ensure a smooth, comfortable ride. The W12 and V8 engines utilise Variable Displacement technology to enhance engine efficiency, by shutting down half the cylinders when they're not required, and reactivating them again as soon as they're needed – without the driver even noticing. The hybrid system, on the other hand, shuts down the internal combustion engine entirely and switches to electric-only propulsion when cruising, seamlessly re-incorporating it when required.

With the largest 10-piston iron brakes in the world, the Flying Spur delivers fast and effective stopping power, courtesy of technology originating in the aerospace industry. This differs if you choose the hybrid powertrain, as the brakes have been optimised in size and weight to work in harmony with the regenerative braking of the E-Motor, ensuring a smooth and effortless deceleration.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Hybrid engine.
Sustainable power.

Four Flying Spur models come with the option of a hybrid powertrain, balancing speed and power with forward-focused technologies to create exceptionally advanced and progressive vehicles. The innovative combination of a 2.9 litre V6 combustion engine and powerful E-Motor injects effortless power into every drive, for rewarding journeys in the city and beyond.

With twin, counter-rotating turbochargers located inside the V of the engine for a faster throttle response, the 2.9 litre V6 engine combines seamlessly with the E-Motor to provide an impressive 750 Nm (553 lb ft) of combined torque. This allows the Flying Spur to go from 0 to 60 mph in just 4.1 seconds (0 to 100 km/h in 4.3 seconds).

When you head to the open road, you'll find the exhaust note of the V6 petrol engine is especially pleasing when the throttle is opened wide. Advanced chassis systems are designed to balance comfort with pure driving pleasure.

Three intelligent driving modes ensure that you can enjoy the most serene and efficient drive at all times. The EV Drive mode maximises electric drive for short journeys and city driving, while Hold is designed to preserve battery charge for when you need it. Hybrid mode intelligently combines the V6 engine and E-Motor to maximise range and performance.

The elegant recharging unit enables you to recharge your vehicle between drives from the comfort of your home. With over 40 km (or 25 miles) of electric driving on a single charge, you can complete regular journeys in full electric mode.

V8 engine. Phenomenally exciting.

Whichever Flying Spur model you choose has the option of a V8 engine. This choice offers a spirited performance, characterised by its tireless agility and responsive handling. This immersive V8 experience, made possible in part by the light nature of the engine, is enhanced by incredible acceleration and the characteristic burble of the emotive exhaust note.

Generating a peak of 542 bhp (550 PS, 404 kW) it reaches its maximum torque value of 770 Nm (568 lb ft) at just 2,000 rpm, maintaining this through to 4,500 rpm. This ensures that rapid acceleration is available across a wide engine speed range. These impressive figures provide a 0 to 60 mph time of 4.0 seconds (0 to 100 km/h in 4.1 seconds).

This speed and power is matched by technology that's specially designed to enhance every drive. Two twin-scroll turbochargers create parallel flow channels in the turbine housing, allowing for high torque at low speeds. Meanwhile, the addition of a Dual Mass Flywheel serves to dampen oscillations between the engine and the driveline, resulting in a remarkably smooth ride.

An adaptive tailpipe control valve has been introduced to optimise the sound character difference between Sport and Bentley mode. The way that gas flows into the rear half of the exhaust system creates a more discreet exhaust note inside the cabin for passengers, whilst retaining the characteristic V8 burble. The Flying Spur S retains a more dramatic note, thanks to the sports exhaust.

For the driver and their passengers, the V8 engine provides the perfect experience in any Flying Spur model.

W12 engine.
Formidable power.

Built at the Bentley factory in Crewe, the 6.0 litre W12 engine embodies our drive to provide world-class performance. It delivers 626 bhp (635 PS, 467 kW) of power and 900 Nm (664 lb ft) of torque to provide a seemingly never-ending surge of acceleration, propelling the car from 0 to 60 mph in 3.7 seconds (0 to 100 km/h in 3.8 seconds) – and on to an exhilarating top speed of 207 mph (333 km/h).

An eight-speed, dual clutch transmission pre-selects the next gear before the gearshift takes place, improving torque delivery and ensuring smooth and fast gear shifts with a seamless surge of acceleration. Maximum speed can be reached in sixth gear, with seventh and eighth gears reducing fuel consumption when cruising – perfect for grand touring.

Choosing the W12 engine puts your Flying Spur at the cutting edge of automotive engineering, with performance credentials that deliver class-leading speed, drivability and handling – perfectly crafted.

TECHNOLOGY

Advanced, yet instinctive.

Wherever you sit in the Flying Spur, intelligent technology is presented in an intuitive way, giving you complete control.

For the driver, a unique digital instrument display presents all the information you need clearly and simply. You can choose between a classic or expanded view and select where and how the vehicle speed is displayed.

For both driver and front passenger, the central display allows you to have control over every element of your journey. The 12.3" HD touchscreen can show one single function or be divided into two or three sections. You can access the driver assistance features, entertainment and navigation plus all technology and comfort features.

For the rear-seat passengers, the precision-crafted Touch Screen Remote allows you to stay connected with the front cabin, move the seat positioning, and share information with the navigation system. The remote also gives passengers control of the rear cabin environment, such as the window blinds and airflow. It sits within the centre console and can be removed at the touch of a button, so you can perfect your surroundings while sitting back in the comfort of your seat.

Digital, or analogue. In perfect harmony.

At Bentley, we believe in fusing technology with craft to make the journey feel extraordinary in surprising new ways.

The Bentley Rotating Display of the Flying Spur is unlike any other automotive display. When you enter the Flying Spur, the beautiful veneer of the fascia is punctuated only by the vents and the driver display. But when you start the engine, the central section of the veneer rotates to reveal the 12.3" HD touchscreen.

If you want to leave the digital world behind, you simply press a button and the display rotates again to reveal three analogue dials surrounded by jewel-like polished chrome bezels, capturing the grand touring spirit of a bygone era in a distinctly modern way.

Or if you want to focus purely on the road, just press the button once more and the display rotates back to its original position, for an uninterrupted stretch of veneer running across the fascia.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

All the assistance you need.

Whether you're travelling across continents or moving through urban environments, the Flying Spur employs a wealth of driver assistance features that make every journey effortless.

Adaptive Cruise Control regulates the speed of the car, relative to the vehicle in front. Radar sensors scan the road ahead, enabling you to maintain your chosen speed. If the car in front slows, so does yours – right down to a stop, if required. When the traffic starts to move again, your car accelerates to your selected cruising speed, all without your feet ever touching the pedals.

Blind Spot Warning monitors the area immediately to the sides and the rear of the car. If you attempt to move into a lane where another vehicle is approaching, a visual warning is displayed on the exterior mirror. Active Lane Assist, meanwhile, uses a video camera to detect any drifting across lane boundaries, making small corrections as necessary.

Integrated Traffic Sign Recognition detects speed limits, including temporary speed restrictions, as well as zones in which overtaking is prohibited. The information is displayed in the digital instrument cluster and the Head-Up Display – a standard feature on the Mulliner and Azure models that is available as an option right across the range.

The Park Distance function sounds a warning if the car gets too close to a parked vehicle at the front or the rear. A visual warning also appears on the touchscreen, alongside the view from the rear-facing camera. Park Assist can even search for a suitable car parking space and then operate the steering wheel to park the car, while you control the brake and accelerator.

Three more cameras fitted around the car enable it to display a 360-degree view when parking – you can even opt to see the view from each one. Exit Warning alerts you to approaching traffic when opening the door, while Reversing Traffic Warning assists you when reversing out of your parking space.

All these features work seamlessly together to ensure that this is a car you can drive with complete confidence at all times.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Intuitively connected.

The Flying Spur is poised and equipped with a cutting-edge suite of Connected Car services, harnessing real-time information to respond intelligently to the ever-changing world around you. These intuitive services are accessed seamlessly in-car, or remotely via the My Bentley app – the ultimate partner to any Bentley owner – making your journey and your daily life smarter, safer and more convenient.

Smart

Real-time traffic information gathers up-to-the-minute traffic data into the navigation system, enabling you to plan more effectively and avoid traffic congestion by dynamically re-routing your journey. Google's online search provides easy, voice-controlled access to information about notable locations you may encounter on the way, while news and weather feeds update as you drive.

Safe

Innovative safety features include Private eCall and Roadside Assistance, which automatically connect you to the Bentley Roadside Assistance team in the event of an accident, establishing your location and condition of the vehicle. Furthermore, Theft Alert and Perimeter Alert will send you push notifications if your car leaves a predefined geographical area or if the alarm is activated.

Convenient

Useful features and tools let you prepare for the journey ahead, even when you're apart from your Bentley. The Activate Heating* function allows you to adjust the climate control when away from your car, preparing your cabin and passenger area with an optimum temperature before you even enter it. Meanwhile, Find My Car ensures you always know where you last parked, even in the largest of car parks. With the My Bentley app, you can even check the status of your locks, lights, mileage and fuel.

Always on

The My Bentley app is quite simply your essential companion, allowing you to stay connected to your car, wherever you are in the world. From knowing where it is, accessing its status, locking it and controlling specific functions, it provides the ultimate convenience.

Every aspect of the My Bentley app benefits from automatic updates, meaning new features will be deployed and improved without you having to tap a finger. Simply search and download the My Bentley app on the App Store or Google Play.

Download on the App Store

GET IT ON Google Play

*Hybrid powertrain or optional Remote Park Heater required.
Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Lead the charge.

When you choose the hybrid powertrain, your Flying Spur brings together unrivalled connectivity and technology with a range of forward-looking features – all designed to elevate your journey.

In addition to the core suite of My Bentley Connected Car services, you gain access to exclusive features made to enhance your electrified journeys further. Accessed via the My Bentley app, tools such as My Battery Charge allow you to initiate charging remotely, while the E-Charging service lets you find charging stations near you, however far you've travelled from home.

You can also control the enhanced driving environment with My Cabin Comfort. This feature allows you to either heat or cool the cabin to an optimal temperature before you reach your car, enabling you to begin every journey in maximum comfort, and with maximum battery range, as the amount of stored energy required to alter the temperature of the cabin is minimised.

Innovative technology will change the way you drive too. When travelling in Hybrid mode, the Intelligent Navigation System maximises range and efficiency by choosing the most appropriate power source for each stage of your journey. If you're making your way through a low emissions zone, for example, it will adapt for this, making sure the battery holds enough power in reserve during the earlier stages of your drive.

When decelerating, intelligent coasting optimises the efficiency of your journey by choosing the right level of deceleration and energy recuperation, depending on what vehicles or obstacles lie ahead. For your ease, predictive messages and icons are displayed on the digital driver's information panel to inform you of obstacles ahead, such as junctions and roundabouts – and even signals the optimum time for you to release the accelerator pedal for added efficiency.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Bright ideas.

Driving the Flying Spur is always effortless – day or night.

LED matrix headlamps allow the lights to stay on full beam at all times, enhancing visibility and helping you stay focused on the drive. The technology detects oncoming vehicles and automatically deactivates the appropriate section of the LEDs to avoid dazzling the approaching driver, while the rest continue to illuminate the road ahead.

An optional Night Vision Camera uses infra-red to monitor the road up to 300 metres ahead. This allows you to detect obstacles beyond the range of the headlamps, with people or animals highlighted in yellow on the driver's instrument panel. If there is a risk of collision, the yellow turns to red and a warning sounds, while the headlamps flash a targeted beam three times to warn both the driver and the pedestrian.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

A place to relax.

The cabin of the Flying Spur is carefully composed to create a welcoming and revitalising environment for any journey and every mood.

The atmosphere inside the car remains fresh at all times as an active carbon filter traps dust, pollen and other particles, with an ioniser ensuring a steady flow of clean air to the cabin.

Once settled in the fresh atmosphere of the cabin, you can delight your ears with a choice of three stunning audio systems, including one by Naim and another by Bang & Olufsen.

For passengers' total enjoyment, the optional Bentley Rear Entertainment System offers an exceptional immersive experience. Two removable, high-definition, 10.1" screens are mounted on the back of the front seats. Easy access to Netflix, which comes pre-installed, and other streaming apps provides endless TV and movie entertainment, while device mirroring allows passengers to cast directly from their phone to the high-definition screen.

Sound streams seamlessly via Bluetooth to personal headphones, the headphones provided or through the sound system you've chosen, for a cinematic adventure on the road.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

INTERIOR

A space to be inspired.

The spacious interior of the Flying Spur combines the finest natural materials with expert craftsmanship. A wealth of intricate details come together to enhance the comfort and wellbeing of every occupant, creating an environment that is as inspiring as it is calming.

The refined, open feel of the front cabin allows the driver to focus on the road uninterrupted, while the spacious rear cabin cocoons the passengers.

The Flying Spur range comes with the versatile five-seat configuration providing three rear seats. Apart from the Flying Spur Mulliner, which comes with a spacious four-seat configuration.

Above it all is a glass-to-glass panoramic sunroof that fills the cabin with natural light. With a fixed panel of glass at its rear, the front panel tilts and slides to let fresh air in, while electric Dinamica blinds, colour-matched to your interior, provide shade whenever you wish. A function in the Touch Screen Remote allows all the rear cabin and sunroof blinds to be closed or opened simultaneously with one touch.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

A world of detail.

The design of the cabin is inspired by the Bentley wings marque, creating a beautiful, harmonious, flowing interior. While the relaxing atmosphere of the cabin is due in no small part to the level of detail applied to every element.

At the heart of every Flying Spur is a dramatic floating centre console. Its length accentuates the graceful lines that run upwards in a wing shape, following the dashboard before continuing across the leather panels on both front and rear doors.

A stunning central vent sits above the centre console. Beautifully sculpted and precision-crafted, inspired by the shape of the Bentley 'B', it features a Bentley clock with fine bronze detailing at its centre. For those who choose the Flying Spur Mulliner, an exclusive Mulliner clock face adorns the centre console, fusing analogue and digital design for a striking focal point.

A jewel-like diamond knurling is found on the rotary switches and the chrome and black indicator stalks. This knurling can also be applied to the bullseye vents, clock and the centre vent, in an echo of the exterior tail lamps.

The seamless knurling pattern on the centre vent alone features 5,331 diamond shapes, created with a method so complex that a bespoke software algorithm was developed to map the facets to its curves.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Sitting comfortably.

The seats of the Flying Spur are designed to make even the longest grand tour a pleasure.

With a twin flute seat design, the seats are as comfortable as they are elegant. A world of adaptable features includes adjustable side bolsters and rolling nose cushion extensions in the front seats, and a top tilt mechanism, electrically adjustable headrests and ventilation and massage functions in both front and rear seats – all as standard.

With the five-seat configuration, three people can sit comfortably in the rear. When there are only two rear passengers, the centre headrest can be stowed to enhance driver visibility. Adding to the comfort of the heated door armrests, a heated central armrest folds down, enhancing the feeling of being cocooned in a tranquil environment.

The four-seat configuration of the Flying Spur Mulliner includes two sumptuous armchair style seats in the rear with an expansive centre console – a practical and contemporary stowage area featuring charging ports, with a wireless option available, a drinks holder and the innovative Touch Screen Remote.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Detail designed to be appreciated.

The Flying Spur can be commissioned with three different door pad options. Soft leather offers an understated yet sophisticated style, while the Flying Spur Azure adds three-dimensional leather diamonds to the doors and Organic Comfort Quilt to the seats.

Alternatively, the veneer door pads are designed to match the fascia and waistrails for a sleek and elegant appearance. The Côtes de Genève finish available on the centre console is machined from side to side on aluminium just 0.6 mm thick. Each row is 5 mm wide and machined at an angle to give a truly three-dimensional finish.

Electronically deployed picnic tables, with a veneer outer surface and hide-trimmed inner surface, can be used at your leisure, providing a convenient resting area for personal items.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Explore every handcrafted detail of Mulliner.

There are many things that make the Flying Spur Mulliner unique. This includes a wealth of exclusive detailing that denotes its status as the luxurious pinnacle of the range.

As you open the door, you are greeted by Mulliner illuminated treadplates and, when you step inside, the sophisticated cabin is revealed. This features a Mulliner colour split with three accent colours in a choice of eight combinations, accent colour piping to the seats and Mulliner seat embroidery.

An exclusive, breathtaking Mulliner clock and a diamond milled technical finish to the centre console draw the eye, while chrome bulls eye vents and chrome overlays to the fascia, waistrails and the rear of the picnic tables create touches of brilliance all around you.

Even the driver's display is elevated, thanks to exclusive graphics with a contemporary sporting feel.

The Flying Spur Mulliner also includes the most desirable optional features of the Flying Spur range. These include the Touring Specification with Head-Up Display and Night Vision Camera, panoramic sunroof, Bentley Rotating Display, diamond quilting, mood lighting and the Grand Black veneer.

PERSONALISATION

Designed by Bentley. And by you.

Every attribute of the Flying Spur has been considered from every angle by the expert designers and engineers at Crewe. Each aspect combines the finest materials with skilled craftsmanship to create something truly captivating.

When you commission your car, you can make those details even more special by choosing the ones that resonate with you. Over the following pages, we take a look at the almost endless possibilities that allow you to make your Flying Spur your own.

Personal commissioning from the expertise of Bentley Mulliner.

The very first drivers bought a vehicle comprising just an engine, drivetrain, four wheels and a set of controls. The rest required a coachbuilder, such as Mulliner. Still, today, no-one is better placed to help make your car an expression of your unique style.

At Bentley, the Mulliner Personal Commissioning team provide personal customisation which is virtually limitless. For instance, the colour of any object in your possession can be matched to create your own personal paint colour. The same is true for your hides – any colour you can find, or dream, can be perfectly matched and made for you only.

The team in Crewe can also create personalised embroidery for your seats, handstitched from any design of your choosing. Not to mention exquisite marquetry inlays to your veneers, manifesting your unique vision through timeless artisan craft.

To explore the endless possibilities, ask your Bentley Retailer about the Personal Commissioning Guide, or simply visit the **website**.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Exterior finish.

Colour can be a powerful expression of who you are. That's why we offer a wide range of exterior colours that have been carefully curated by the Bentley design team, each one chosen specifically to emphasise the sleek lines of the Flying Spur and give it a unique presence on the road.

There are seven standard exterior colours for the Flying Spur and Flying Spur S, and 16 for the Flying Spur Azure, Flying Spur Speed and Flying Spur Mulliner. You can also choose from an extended range that includes a new blue-green metallic option, Topaz Blue. Finally, there are Mulliner paints, which include solid, metallic, satin and pearlescent options. In total, it adds up to over 80 colours. But if you still don't see what you're looking for, **Personal Commission Paint by Mulliner** allows you to match a colour that is as unique as you are. The only limit is your imagination.

Veneers.

Our veneers are sustainably sourced from forests around the world.

The Flying Spur comes with Crown Cut Walnut veneer as standard, its horizontal straight grain adding to the feeling of spaciousness.

The Flying Spur Azure is fitted with the tactile open pore Crown Cut Walnut, finished with an ultra-thin lacquer that allows you to feel the natural grain of the wood that surrounds you.

Inside the Flying Spur S and the Flying Spur Speed, you'll find the Piano Black veneer adds to the overarching dark, dynamic aesthetic.

The Flying Spur Mulliner cabin is crafted using the flawless Grand Black veneer with a Diamond Milled technical finish on the front and rear console, along with chrome inlays to the fascia, waistrails and picnic table – each enhancing the bespoke, considered nature of this vehicle.

There are twelve single veneers to choose from, with or without a chrome pinstripe running along the centre. Or you can opt for one of nine dual veneers, each contrasting a different wood above the pinstripe with a gleaming black veneer below.

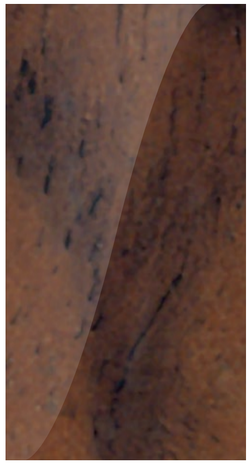

Optional Carbon Fibre, Engine Turned Aluminium or Diamond Brushed Aluminium are available for the fascia and front door waistrails, for those seeking a contemporary, motorsport-inspired feel.

Please refer to Specifications and Options pages 54-64 for standard and optional veneers. Not all options are available on all models and within all markets.

Hides.

Every inch of the interior of the Flying Spur is upholstered by hand. Crafting the hides is a time-honoured process that involves skills that take years to learn.

From the seats to the steering wheel, every part of this extraordinary car requires a different approach. Which is why sections of the hide with high natural elasticity are used for curved surfaces like the seats, rather than for piping or flatter areas such as door inserts. The steering wheel, meanwhile, is covered in a different type of leather, more resistant to the natural chemicals it absorbs from the driver's skin.

With a choice of 15 hide colours that can be arranged in single tone or duo-tone combinations, matching or contrasting stitching, hand-cross stitching, seat piping and adjustable accent lighting, you can personalise the interior of your Flying Spur to create a look that is truly unique.

Please refer to Specifications and Options pages 54-64 for standard and optional hides. Not all options are available on all models and within all markets.

Inspired Specifications.

The Flying Spur and Flying Spur Azure offer the opportunity to personalise your vehicle further, depending on your preference for a commanding road presence, or sporty style.

Blackline Specification.

For a dramatic, purposeful look, the Blackline Specification adds a brooding character to the Flying Spur. Replacing all exterior polished chrome with all-black brightware, it includes side window surrounds, wing vents and lower door brightware, rear bumper brightware, front headlamp bezels, matrix grille and vertical vanes, door handles, rear number plate surround, rear lamp bezels and exhaust tailpipes.

Styling Specification.

Offering a range of additions in carbon fibre, the material of choice for the motorsport industry, the Styling Specification adds to your car's dynamic exterior. Elements include a front splitter, side sills, rear diffuser and boot lip spoiler.

Please refer to Specifications and Options pages 54-64 for standard and optional features. Not all options are available on all models and within all markets.

Specification Packages.

To make it even easier to specify your Flying Spur, our engineers and designers have created groups of features, from technology packages that make driving easier to collections of exquisitely crafted styling enhancements.

CITY SPECIFICATION

- Auto-dimming door mirrors
- Hands-free boot opening
- City Assist
- Top View Camera
- Pedestrian Warning
- Reversing Traffic Warning
- Traffic Sign Recognition

TOURING SPECIFICATION

Digital assistance features for effortless cruising.

- Active Lane Assist
- Automatic Cruise Control with Traffic Jam Assist**
- Bentley Safeguard Plus
- Night Vision
- Head-Up Display**

COLOUR SPECIFICATION

Opens up a range of additional interior options for the Flying Spur.

- Choice of two tone interior colour combinations
- Ten additional hide colours

MULLINER COLOUR SPECIFICATION

- Eight new colours available for all stitching options

BLACKLINE SPECIFICATION

Replaces the exterior brightware with a gloss black trim.

Create your own alluring combination.

It takes the juxtaposition of many contrasting elements to create the modern alchemy of the Flying Spur. All you have to do is find the combination that reflects your unique style. To start your extraordinary journey, explore the **Bentley Configurator.**

Financing your Flying Spur.

Our finance agreements are tailored to ensure you make the most of your investment.

While other financiers look only at the circumstances of the customer, Bentley Financial Services creates bespoke packages, based not just on your needs and income, but also on the car you have in mind.

To discover more, please visit your local Bentley Retailer or visit **BentleyMotors.com**

Experience it for yourself.

As with every Bentley, there is only one way to truly appreciate this car – to sit in the driving seat, take the wheel in your hands and feel the breathtaking surge of acceleration as you put your foot down.

To take the next step in the journey of acquiring your Flying Spur, we recommend a conversation with a Bentley Retailer.

You can find your nearest showroom at **BentleyMotors.com**

WORLD OF BENTLEY

The Bentley Collection.

The Bentley Collection is a selection of lifestyle products inspired by the distinctive design of our cars. With many items lovingly crafted by highly skilled artisans, the Bentley Collection takes our exciting heritage and vision for the future, and seamlessly weaves it into extraordinary statement pieces.

From unique pieces for the home that elevate your everyday, to lovingly crafted clothing and accessories designed with a distinctive eye for detail, you can bring Bentley's unrivalled refinement to every aspect of your life.

To view the complete range, please contact your local Bentley Retailer or visit the online store at **BentleyCollection.com**

The Bentley Experience.

These unique tours offer unrivalled opportunities to explore behind the scenes at the Home of Bentley in Crewe and visit the flagship showroom, CW1 House.

Available as an onsite, real-world experience or virtual tour, our experienced, knowledgeable hosts will share rare insights into the design and engineering process. You will meet the craftspeople who build your car and witness the skill and detail that goes into creating a personalised Bentley. You'll also discover the innovations and techniques they're using to craft a sustainable vision of the future.

The Bentley Experience offers a truly tailored journey, with exclusive access to the historic factory, and your questions answered as you go – by experts who share your passion for Bentley. You can even collaborate with them to commission your own highly personalised car.

Extraordinary Journeys.

We run a number of events each year for Bentley drivers and admirers, such as Extraordinary Journeys. These occasions offer the experience of seeing Bentley craftsmanship up close, while also offering a great deal more in the way of discovery. Participants experience aspects of Bentley beyond the car – a love of beautiful locations, a focus on wellbeing, an exploration of sustainability, and the chance to meet inspiring people who are reshaping the world.

In the UK, for example, Bentley enthusiasts have the opportunity to tour the Home of Bentley in Crewe before setting off on a journey that includes sustainable fine dining, some of the country's most notable landscapes and landmarks, and hospitality at a range of forward-thinking establishments.

To discover more, please talk to your local Bentley Retailer or visit **BentleyMotors.com**

SPECIFICATIONS & OPTIONS

Flying Spur

STANDARD SPECIFICATION

POWERTRAIN AND VEHICLE DYNAMICS

- Eight speed dual clutch transmission
- Active all-wheel drive
- Quad oval exhaust finishers
- Three chamber air suspension with continuous damping control (CDC)
- Electronic Stability Programme (ESP) with Traction Control (TCS) / Anti-lock Braking System (ABS) / Electronic Brake Force Distribution (EBD) / Hydraulic Brake Assist (HBA) / Drag Torque Control (MSR).
- Dynamic ride-height control (auto-adjusts at speed) + ground clearance function
- Drive Dynamics Control
- Electronic tyre pressure monitoring sensors (TPMS)
- Front vented 420 x 40 mm disc brakes with Bentley branded black brake callipers (V8)
- Front vented 410 x 38 mm disc brakes with Bentley branded black brake callipers (hybrid)
- Rear vented 380 x 30 mm disc brakes with black brake callipers
- Electronic parking brake with drive away assist
- Brake pad wear indicator
- Torque vectoring by brake

EXTERIOR

- Choice of seven standard paint colours: Beluga (solid), Dark Sapphire, Glacier White (solid), Moonbeam, Onyx, St. James' Red (solid), Thunder
- 20" 5 twin-spoke alloy wheel – painted*
- 21" 10 twin-spoke alloy wheel – painted†
- Black gloss matrix grille with chrome surround
- Black matt lower bumper matrix style grille with bright surround
- Bentley wing badges to bonnet and boot
- Chrome 'BENTLEY' lettering to boot
- Body coloured door mirrors
- Body-coloured exterior mirror housings with bright trim
- Chrome bonnet strip
- Chrome Flying 'B' design fender vents
- Chrome trim to side window surrounds
- Chrome trim to lower doors, fenders and rear bumper
- Bentley 'B' badges to wheel centres
- Keyless entry remote control, with safe locking and start / stop button
- Power latching to doors
- Hands-free 'Virtual Pedal' power operation to boot lid
- Extended and crash-active pedestrian protection
- Acoustic, heat-insulating front screen
- Acoustic side glass with IR barrier
- Heated rear screen
- Tyre inflation kit
- Keybox

INTERIOR

- Crown Cut Walnut veneer
- Driver and front passenger airbag with front passenger airbag deactivation
- Side airbags front and rear with curtain airbags
- Child seat anchor for child seat system ISOFIX and rear outer ISOFIX with outer top tether
- Dinamica headlining
- Nappa leather interior on seats and lower cabin
- Choice of five hide colours
- Monotone interior colour split
- Fluted seat design
- Front seats – electric 24-way adjustment with heating, ventilation, massage, adjustable bolster function and two memory positions
- Single front centre armrest with heating and fore / aft slide adjustment
- Heated armrests to all four doors
- Rear seats – electric 14-way adjustment with heating, ventilation, massage and two memory positions
- Super soft Dinamica headrest cushions to rear seats
- Fold-down, heated rear centre armrest with stowage, twin cup holders 12 V socket and two USB-C charging points
- Seatbelts colour-matched to hide colour, with hide-trimmed buckles
- Metal bulls-eye vents with organ stops
- Sculptural centre air vent with Bentley analogue clock – bright polished
- Diamond knurling to rotary switches and column stalks
- Leather trimmed gear lever
- Steering wheel mounted gearshift paddles
- Single tone, three-spoke hide and heated steering wheel
- Deep pile cabin carpets
- Boot carpet in Beluga
- Two cup holders to the front centre console
- Lockable glove box
- Stowage to four doors and front and rear centre consoles
- Sun visors with illuminated vanity mirrors
- Footwell illumination and ambient lighting
- 'BENTLEY' branded treadplates to door sills
- Electrically operated blinds for rear side windows and rear screen

TECHNOLOGY AND DRIVER ASSIST

- Full LED matrix headlamps with high-beam assist
- Full LED tail lamps
- Welcome lighting
- Rain sensing windscreen wipers
- Electric tilt-and-reach adjustment steering column with memory and easy-entry functions
- Cruise control
- Top view camera with graphic screen representation
- Front and rear park distance control
- Park assist
- Exit warning
- Blind spot warning
- Auto dimming interior rear view mirror
- Multi-zone automatic climate control
- Air ioniser
- Touch screen remote control for rear cabin
- Inductive phone charger (front console)
- 12V power sockets (x2 cabin, x1 boot)
- Alarm and immobiliser
- Boot lid down lighters
- External battery charge point
- Bentley GPS tracking system*

AUDIO AND COMMUNICATION

- Infotainment system with 12.3" HD touch screen display. Proximity sensors and hard key controls. Digital radio, HDD-Navigation, advance music interface, (AMI), single DVD/ CD slot, two SD card slots, Bluetooth (A2DP) and WiFi (uPnP) streaming.
- Navigation – featuring text-to-speak, voice destination entry and 3D building display
- 60Gb solid-state hard drive
- Hidden antennae
- 4G LTE telephone module*
- Bentley audio system, 10 speakers, 650 watts, 11 channel amplifier

NCO = No Cost Option.
*Regional applicability. †Standard in China with hybrid powertrain only.

CONNECTED CAR IN-CAR SERVICES

- Apple CarPlay®
- Real-time traffic information
- Map update
- Satellite Maps
- Local Hazard Information
- Traffic sign recognition
- Online search
- Personal navigation assistant
- Roadside assistance call
- Private e-Call
- ERA Glonass (Russian e-Call)
- News
- Weather
- Privacy mode
- WiFi hotspot

REMOTE SERVICES

- Find my car
- Lock my car
- Activate lights and horn
- Theft alert
- Stolen vehicle finder
- Perimeter alert
- Speed alert
- Curfew alert
- Valet alert
- My car status
- My Car Statistics
- My Cabin Comfort
- My Battery Charge

OPTIONAL SPECIFICATION

POWERTRAIN AND VEHICLE DYNAMICS

- Front vented 420 x 40 mm disc brakes with Bentley branded red brake callipers (V8 and W12)
- Front vented 410 x 38 mm disc brakes with Bentley branded red brake callipers (hybrid)
- Rear vented 380 x 30 mm disc brakes with red brake callipers

EXTERIOR

- Over 80 additional exterior paint colours including Mulliner colours
- 21" 10 twin-spoke alloy wheel – painted††
- 21" 10 twin-spoke alloy wheel – dark grey painted and bright machined††
- Mulliner double diamond radiator grille (bright with black surround)
- Mulliner double diamond wing vent (Black)*
- Gloss black lower bumper grille
- Black and body coloured door mirrors (NCO)
- Panoramic glass tilt and slide sunroof with twin blinds and vanity mirrors
- Sports exhaust (W12)*
- Illuminated Flying 'B' radiator mascot – black gloss

INTERIOR

- 4+1 Seating configuration (NCO)
- Embroidered Bentley emblems (NCO)
- Hand cross stitching by Mulliner
- Contrast seatbelts by Mulliner
- Seat piping with contrast stitching including steering wheel stitching (NCO)
- Semi aniline leather to seat inserts
- Choice of additional veneers: Burr Walnut by Mulliner, Crown Cut Walnut, Dark Fiddleback Eucalyptus, Dark Stained Burr Walnut, Liquid Amber, open pore Crown Cut Walnut, open pore Dark Burr Walnut, open pore Koa, Piano Black, Piano Linen by Mulliner, Tamo Ash by Mulliner (all NCO)
- Choice of dual veneers applied to the upper fascia, with Grand Black veneer on the lower fascia and centre console (all NCO)
- High gloss Carbon Fibre – fascia / door waistrails, with Piano Black on the centre console (NCO)
- Engine Turned Aluminium – Dark tint*** (NCO)
- Diamond Brushed Aluminium – Dark Tint
- Decorative insert for front console – Côtes de Genève
- Diamond knurling to metal bulls-eye vents, organ stops, centre vent
- Veneered door casings to rear doors
- Refrigerated bottle cooler**
- Single tone, three-spoke hide and heated steering wheel (NCO)
- Single tone, three-spoke indented hide & heated steering wheel (NCO)
- Duo-tone, three-spoke indented hide & heated steering wheel (NCO)
- Steering wheel vertical spokes and gear lever in contrast colour by Mulliner
- Lambswool rugs by Mulliner – front and rear (in addition to standard overmats)
- Headliner matched to secondary hide (NCO)
- Seatback matched to main hide (NCO)

TECHNOLOGY AND DRIVER ASSIST

- Digital TV Tuner*
- Park heater with remote activation function
- Remote control garage door opener*
- First aid kit and warning triangle
- Battery charger
- Inductive phone charger (rear console – four-seat configuration only, replaces front inductive charger) (NCO)
- Valet key
- Bentley Rear Entertainment
- Bentley charging dock (NCO)

AUDIO AND COMMUNICATION

- Bang & Olufsen audio system
- Naim for Bentley premium audio

SPECIFICATION PACKAGES

- Mulliner Blackline Specification
- Mulliner Colour Specification
- Smoker's Specification

See the full details of these specifications on page 48.

NCO = No Cost Option.
*Regional applicability. **Not available with hybrid powertrain.
***Only available on front centre console.
††Available in China with hybrid powertrain only.
Certain options and specifications may appear as standard or may not be available.
Please contact your local Retailer for more information.

Hybrid powertrain.

Engine: 2.9 litre V6 TFSi engine combined with 100 kW electric motor

Max power: 536 bhp / 400 kW / 544 PS

Max torque: 750 Nm / 553 lb ft

Transmission: 8-speed dual clutch

Driveline: Active all-wheel drive

Top speed: 177 mph / 285 km/h†

0-60 mph / 0-100 km/h: 4.1 seconds / 4.3 seconds

Wheelbase: 3,194 mm / 10 ft 5¾ in

Overall length: 5,316 mm / 17 ft 5¼ in

Width (across body): 1,988 mm / 6 ft 5 in

Width (including mirrors): 2,013 mm / 6 ft 6 in

Overall height: 1,483 mm / 4 ft 10½ in

Fuel tank: 80 litres / 18 UK gallons / 21 US gallons

Boot volume: 351 litres / 12 cu ft

Kerb weight: 2,505 kg / 5,523 lb

Gross weight: 3,030 kg / 6,680 lb

Fuel consumption (WLTP cycle)

Low: 18.6 mpg / 15.2 l/100km

Medium: 26.6 mpg / 10.6 l/100km

High: 29.7 mpg / 9.5 l/100km

Extra High: 27.4 mpg / 10.3 l/100km

Weighted, combined: 85.6 mpg / 3.3 l/100km

CO_2 Emissions weighted, combined: 75 g/km

Driving Range: 500 miles / 805 km

E-range: 25.5 miles / 41 km

Fuel consumption
(NEDC Cycle WLTP Equivalent – Europe)

Weighted combined: 3.2 l/100km

CO_2 Emissions weighted, combined: 73 g/km

E range: 51 km

Fuel consumption (NEDC Cycle – ROW*)

Urban: TBC l/100km

Extra Urban: TBC l/100km

Combined: TBC l/100km

CO_2 Emissions: TBC g/km

Fuel consumption (EPA cycle*)

City driving (US): TBC mpg

Highway driving (US): TBC mpg

Combined (US): TBC mpg

†Flying Spur and Flying Spur Azure restricted to 168 mph (270 km/h).
*2022 EPA and NEDC ROW estimates not available at time of publication.
See www.fueleconomy.gov for updated information.
Your mileage will vary and depends on several factors including your driving habits and vehicle condition.

V8 engine.

Engine: 4.0 litre twin-turbocharged V8 TSI

Max power: 542 bhp / 404 kW / 550 PS

Max torque: 770 Nm / 568 lb ft

Transmission: 8-speed dual clutch

Driveline: Active all-wheel drive

Top speed: 198 mph / 318 km/h†

0-60 mph / 0-100 km/h: 4.0 seconds / 4.1 seconds

Wheelbase: 3,194 mm / 10 ft 5¾ in

Overall length: 5,316 mm / 17 ft 5¼ in

Width (across body): 1,978 mm / 6 ft 5 in

Width (including mirrors): 2,220 mm / 6 ft 6¼ in

Overall height: 1,483 mm / 4 ft 10½ in

Fuel tank: 90 litres / 19.8 UK gallons / 23.78 US gallons

Boot volume: 420 litres / 14.83 cu ft

Kerb weight: 2,330 kg / 5,137 lb

Gross weight: 2,980 kg / 6,570 lb

Fuel consumption (WLTP cycle)

Low: 14.1 mpg / 20 l/100km

Medium: 21.2 mpg / 13.3 l/100km

High: 26.2 mpg / 10.8 l/100km

Extra High: 25.2 mpg / 11.2 l/100km

Combined: 22.2 mpg / 12.7 l/100km

CO_2 combined: 288 g/km

Driving range: 441 miles / 709 km

Fuel consumption
(NEDC Cycle WLTP Equivalent – Europe)

Urban: 17.1 mpg / 16.5 l/100km

Extra Urban: 32.1 mpg / 8.8 l/100km

Combined: 24.4 mpg / 11.6 l/100km

CO_2 Emissions: 270 g/km

Combined driving range: 482 miles / 776 km

Fuel consumption (NEDC Cycle – ROW*)

Urban: TBC mpg / TBC l/100km

Extra Urban: TBC mpg / TBC l/100km

Combined: TBC mpg / TBC l/100km

CO_2 Emissions: / TBC g/km

Fuel consumption (EPA cycle)

City driving (US): 15 mpg

Highway driving (US): 20 mpg

Combined (US): 17 mpg

†Flying Spur and Flying Spur Azure restricted to 168 mph (270 km/h).

Your mileage will vary and depends on several factors including your driving habits and vehicle condition.

W12 engine.

Engine: 6.0 litre twin-turbocharged W12 TSI

Max power: 626 bhp / 467 kW / 635 PS

Max torque: 900 Nm / 664 lb ft

Transmission: 8-speed dual clutch

Driveline: Active all-wheel drive

Top speed: 207 mph / 333 km/h

0-60 mph / 0-100 km/h: 3.7 seconds / 3.8 seconds

Wheelbase: 3,194 mm / 10 ft 5¾ in

Overall length: 5,316 mm / 17 ft 5¼ in

Width (across body): 1,978 mm / 6 ft 5 in

Width (including mirrors): 2,220 mm / 6 ft 6¼ in

Overall height: 1,483 mm / 4 ft 10½ in

Fuel tank: 90 litres / 19.8 UK gallons / 23.78 US gallons

Boot volume: 420 litres / 14.83 cu ft

Kerb weight: 2,437 kg / 5,372 lb

Gross weight: 3,000 kg / 6,613 lb

Fuel consumption (WLTP cycle)

Low: 10.9 mpg / 25.9 l/100km

Medium: 17.7 mpg / 16.0 l/100km

High: 22.4 mpg / 12.6 l/100km

Extra High: 23.0 mpg / 12.3 l/100km

Combined: 18.8 mpg / 15.0 l/100km

CO_2 combined: 340 g/km

Driving range: 372.82 miles / 600 km

Fuel consumption
(NEDC Cycle WLTP Equivalent – Europe)

Urban: 14.5 mpg / 19.5 l/100km

Extra Urban: 26.4 mpg / 10.7 l/100km

Combined: 20.2 mpg / 14.0 l/100km

CO_2 Emissions: 320 g/km

Combined driving range: 399.54 miles / 643 km

Fuel consumption (NEDC Cycle – ROW)

Urban: 19.5 l/100km

Extra Urban: 10.7 l/100km

Combined: 14.0 l/100km

CO_2 Emissions: 320 g/km

Fuel consumption (EPA cycle)

City driving (US): 12 mpg

Highway driving (US): 18 mpg

Combined (US): 14 mpg
